

## Conference Evening Sessions ...

**Wednesday Aug 7 -5PM**

### **3 Experiments & Free Energy!**

**Inter-Atomic Research...  
The Road Less Taken!**

**Bruce Forrester Jr**

Three experiments based on simple experiments from back in the early wonder days of atomic energy, will lead the way to a new source of energy. A replication from Le Bon's *Evolution of Matter* will shed new light on "phosphorescence" so oft described by early researchers and presently considered an early harbinger of "radioactivity". This will be followed with a explorations of Ed Leedskalnin's work into magnetic forces!

Using the *black lantern* above to emit invisible rays, Gustave Le Bon induced emittance of "phosphorescence" or "intra-atomic" energy from the figurine. The method used to cause the figurine to become luminous, may serve as a source of power exemplified by Moray, Hubbard, Hendershott and others. FBI suppression of atomic information in the Manhattan Project days, and Einstein's relativity theory barred this line of atomic research!

**Thursday Aug 8..... -7PM**

### **The RASHA: Scalar Plasma Crystalline Technology**

**Jere Rivera-Dugenio PhD**

The RASHA scalar plasma crystalline technology features advanced stages of quantum morphogenetic science. Permanent levels of healing, regeneration and rejuvenation can be attained through reprogramming of introns (potential DNA) via the magnetic scalar waves, which in turn unlock the secrets of the water, including the internal marine plasma-like water within each living being. This relates to advanced manifesting and materialization techniques for the reason that healing is a byproduct if you can reclaim the innate ability to manifest and materialize things at will.

The RASHA scalar-plasma-crystalline technology assists an individual to achieve a state of attunement, which is required to achieve Quantum Transmutation-Transfiguration-Transmigration... allowing the frequencies of the light body integrate into the physical, atomic, cellular body.

**Friday Aug 9 -7PM**

### **Staying Healthy**

**In Challenging  
Environments**

**Joel Wallach, DVM ND**

At a time when mankind has created one of the most toxic environments ever recorded, it is essential that we recognize the importance of life in all forms if we are to survive on this Earth. We are in dire need of a close and respectful collaboration between science, nature, technology and our evolving human consciences to bring about a healthy balance so that all life can survive and thrive in the decades to come. It is our duty to ourselves, and future generations to ensure that all of nature is honored and respected as well.

Dr. Wallach is renowned for his ground breaking research on the health benefits of nutraceuticals, vitamins and a wide range of minerals. His landmark book "Dead Doctors Don't Lie" is one of the most popular books in the field of health! It provides you facts, proven truths, and the knowledge and tools necessary to identify the elemental raw materials of life no longer found in our food.

**Saturday Aug 10 - 7PM**

### **Walkkill Exotic ExtraOrdinary Flying Craft**

**Bruce Cornet PhD**

Eleven years of field research (1992-2003) in the Walkkill River Valley of New York State is disclosed. The lengthy study involved the photographing and videotaping of as many as 140 unconventional craft (ETVs), many of which put on deliberate performances for photographic canvasses (time exposures) and videos. Dr. Cornet will attempt to show how these images reveal electromagnetic, plasma, and gravity-altering properties unknown for declassified or disclosed human-built aircraft.

Photographic and video evidence of aircraft possessing the ability to fly sideways and backwards, stop and hover, make high speed right angle turns as well as an ability to take off vertically from farm fields silently will be shown. While these aircraft mimic the appearance of conventional commercial aircraft, they have an entirely different sound signature than any unclassified aircraft.
