

2023 ExtraOrdinary Technology Conference

Albuquerque, NM --\$-- Aug 9 - 13

MEET THE SPEAKERS!

Andrew Batty
 Charlie Ziese
 Robert Plotke
 Danute Debney Shaw
 Ralph Suddath
 Lucian Ionescuc PhD
 Mike Gamble
 Russell Anderson
 Phil Wilson
 Robert Haralick
 George Wiseman
 Dr. Thorsten Ludwig
 Michael Crosswhite
 Richard Blankenship
 Thomas F Bailey
 Dan Stevenson
 Joe Blanton
 Jeff Hayes
 David Pantone
 Moray King
 Danny Dubrall
 Steven Ward Sr
 Suzanne O. Price

ExtraOrdinary Topics Featured...

Tesla Technology • Magnetic Motors • Zero-Point Energy
 Energy Savers • Cosmic/Radiant Energy • Brown's Gas
 Low Temperature Plasma • GEET • ElectroGravitation
 ElectroMedicine • Magnetic Healing

*Get UP CLOSE... & Personal
 with Working Hardware!
 & Meet Real People!*

2023 ExtraOrdinary Technology Conference

Crowne Plaza • Albuquerque, NM • August 9- 13, 2023

TeslaTech, LLC reserves the right to make changes to this schedule without notice.

Wednesday • Aug 9

Session 1 (Evening) • An ExtraOrdinary Revelation

5:00PM: **Charlie Ziese** - *Golden Ratio Secret to FE Tech*

8:00PM: **Conference Evening Social**

Thursday • Aug 10

Session 2 (Morning) • ExtraOrdinary Conciousness Concepts

8:00AM: **Robert Plotke** - *Method to Detect the Mind's Residual Effect*

9:30AM: **Danute Debney Shaw** - *How the Tinman Found His Brain*

11:00AM: **Ralph Suddath** - *COGNYVA Brain Therapy Machine*

Session 3 (Afternoon) • ExtraOrdinary AntiGravity Technology

1:00PM: **Lucian Ionescuc PhD** - *Gravity Control and UFO Technology*

2:30PM: **Mike Gamble** - *Reverse Engineering of the Alexey Graviflyer*

4:00PM: **Russell Anderson** - *Alien Drive Systems*

Session 4 (Evening)

7:00PM: **Phil Wilson** - *ExtraOrdinary Far Infrared Technology!!!*

8:30PM: **Conference Evening Social**

Friday • Aug 11

Session 5 (Morning) • ExtraOrdinary Water Technology

8:00AM: **Robert Haralick** - *Magnetically Treating Water with Frequencies*

9:30AM: **George Wiseman** - *Browns Gas Applications: Why better than pure hydrogen?*

11:00AM: **Ralph Suddath** - *Hydreva Vortex Frequency Water System*

Session 6 (Afternoon) • ExtraOrdinary Energy Technology

1:00PM: **Vendors - Vendor Showcase**

2:30PM: **Dr. Thorsten Ludwig** - *FE Heat Pump: ZPE, Casimir Effect and Cavitation*

4:00PM: **Michael Crosswhite** - *Beyond the Bedini Motor... Emergency Off-Grid Power*

Session 7 (Evening)

7:00PM: **Richard Blankenship** - *Tetryonic Path to Tesla Energy*

8:30PM: **Conference Evening Social**

Saturday • Aug 12

Session 8 (Morning) • ExtraOrdinary Concepts

8:00AM: **Thomas F Bailey** - *From Chaos to Coherency in Carbon, Water and Energy*

9:30AM: **Dan Stevenson** - *A Pragmatic Approach to Infinity*

11:00AM: **Joe Blanton** - *Self-Healing Structured Water, Lasers and Salt*

Session 9 (Afternoon) • ExtraOrdinary Energy Concepts

1:00PM: **Jeff Hayes** - *Nikola Tesla's ExtraOrdinary Clean Energy Solution*

2:30PM: **David Pantone** - *Low Temperature Plasma Generation*

4:00PM: **Moray King** - *The Thunderclap Engine*

Session 10 (Evening)

6:30PM: **Ralph Suddath** - *Understanding Quantum Health*

8:30PM: **Conference Evening Social**

Sunday • Aug 13

Session 11 (Morning) • ExtraOrdinary Physics Concepts

8:00AM: **Danny Dubrall** - *Larger and Smaller, Macrocosm & Microcosm*

9:30AM: **Steven Ward Sr** - *Ward Force Antigravity II*

11:00AM: **Suzanne O. Price** - *Quantum Information Science and Encoded Light*

Pre Conference Workshop
Wednesday Afternoon
Aug 9-- 1PM
Smacker Technology
Andrew Batty

DVDs Will Be Available After Conference!

Wednesday Workshop • August 9 • Tesla Technology Wkshp

Smacker Technology Non-Hertzian Realm of Abundant Energy All Around US!

Featuring ...
**Air Smacker,
Water Smacker,
& Battery Smacker**
Bob Boyce Technology Inside!

Andrew Batty

Smacker Technology helps to erase harmful energy patterns and enhance performance with Zero Point Energy (ZPE). It was invented by a DOD scientist with 30 patents in his name... Bob Boyce! With his patented circuits, we are "smacking" drinking water, water in batteries, water in fuel cells, and smacking the air in your bedroom or office with 100% Non-Hertzian free, zero point energy.

The Water Smacker is energized with four tiny Tesla coils inside the PRO module, inside the

cap, can collect up to 8,000 volts (but only micro amps) of the longitudinal negative space energy. The water memory is erased and the natural frequency of the Earth's cycle, a low sub bass tone runs through the water. This is the reason why it makes the water taste better, as if it just came out of the earth from a spring! Some people even say it tastes like glacier water. This is the only water purifier that erases the memory of the water and puts the 7.5hz signature into your water, a wide healing band to all life on earth.

The Air Smacker is a 100% negative Air Ionizer.. It captures the (-) Non-Hertzian energy that is all around us and flows it past the stainless brush, multi - (e-field) antenna and out the top of the Air Smacker... thus emitting the Schumann Resonance into the room!

The Battery Smacker de-sulfator is capable of restoring those expensive batteries whose cells are not damaged. Burnt, bent, or eroded plates will not work. Old batteries that were sitting around for years, may be able to be rejuvenated. The batteries will absorb electromagnetic and non-hertzian energy. No other de-sulfator will rejuvenate your batteries electrolyte back to acid! Longitudinal pulsing does this job. This is based on forbidden Tesla technology, taken out of the text books.

Conference Lodging Facilities

Limited space...
Please register by June 30!

Crowne Plaza Albuquerque

1901 University Boulevard NE
Albuquerque, NM 87102
(505) 884-2500

Be sure to request our special
**2023 TeslaTech
ExtraOrdinary Technology
Conference rates!**

\$82⁰⁰ per night!!*

* \$86 for 2 people

Hotel Reservations:
(877) 227-6963

Use Code: **TTE**

Special rate expires July 15!!!

Conference Evening Social

Meet the Speakers
... and New Friends!

Wed/Thu/Fri/Sat
~8:30PM

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. Its a great opportunity to make new friends that share your interests. We even provide some refreshments!

Hotel Amenities

Special hotel amenities for
conference attendees include:

- Free Breakfast
- Free high speed internet
- Clean, fresh, modern rooms
- Complimentary Self-Parking
- On-Site Fitness Center
- Free local calls
- Variety of restaurants

Check out our website at : [http:// www.teslatech.info](http://www.teslatech.info)

TeslaTech YouTube Channel

30 Years of Innovative Ideas in Energy and Health

TeslaTech Channel features 600+ presentations with Q&A, spanning over three decades, from major conferences including:

- ExtraOrdinary Technology Conference (2004-2021)
- Exotic Research Conference (1998-2001)
- Global Science Congress (1987-2002)

To Check Out the TeslaTech Channel...

What do the Lasers & Structured Water do for you?

- DE-STRESS your body by Penetrating Optimal Health Frequencies Directly into Your Cells, Tissues, Blood, Nerves, Rods & Cones of the Eyes, the Brain & into the Bones
- Enhancing the Function of your Mitochondria to **Produce 30% more ATP, Your Life Force Energy in Your Cells & in Your Blood**, with more Micro-Circulation & Oxygen
- Up-Regulating Gene Expression for Building Healthier Proteins, (proteins are responsible for the Structure & the Function of Your Body)

- The Hydration Ionizer, Structures, Micro-Clusters, Ionizes & Programs your water with more Optimal Wellness Frequencies!
- Structured Water begins Hydrating Your body via Osmosis in the Mouth and Upper Stomach
- Structured Water is also known as Hexagonal Water because it form a Hexagonal Structure H_2O :
Molecularly we are 99.92% Water Molecules, The Quality of Your Water is the Quality of Your Life, & ALL AGING is To Many Dysfunctional Mitochondria in the Cells & the Blood. Use Our Lasers & Hydrating Ionizer for the BEST WATER

**Sacred
Geometry of
Pyramids**

**Golden Ratio Secret to
Free Energy Technology!**

Charlie Ziese

Researchers Winter and Haremein demonstrated that the Universe and all its constituent parts are scaled using the Golden Ratio, or Phi. When applied to three dimensional space, this results in a specific geometric angle which can be found in fundamental processes in Nature such as the refraction of light, the amplification of sound, and even DNA. It can also be found in architecture dating back thousands of years, as well as in ancient Sacred geometry drawings.

Architecture incorporating this geometry has been associated with free energy. This geometric angle is also found in the contemporary free energy technologies of the Russian Pyramids, Viktor Schauburger, and Nikola Tesla, as well as in numerous high technology applications. Understanding the role of the Golden Ratio in our physical reality can provide much needed insight into free energy technologies of all types.

Thursday Aug 10 -7PM

**ExtraOrdinary
Far Infrared
Technology!**

The Secret is in the chip!

Phil Wilson

Saunas have been used for centuries by all cultures for spiritual and body purification, for healing, and for achieving optimum health. Research on *far infrared light energy saunas* began about 60 years ago in Japan. In 1987, the Relax Sauna Company was commissioned to create a healing spa-like energy similar to the healing waters of southern Japan, out of electricity. It took 10 years for the company, using semi-conductor chips, to find a way to filter out the near and mid infrared energies to generate a pure far infrared energy between 4-14 microns. Only this energy resonates with our water molecules and organic cells. This major achievement to this day has not been duplicated.

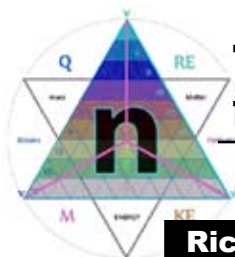

The Relax far infrared sauna increases core temperature, employs principles of hyperthermia, and has a profound impact on the parasympathetic nervous system, giving a euphoric feeling as well as feelings of great joy... not to mention pain relief!

Friday Aug 11-7PM

**Tetryonic Path
to Tesla Energy**

**Want to find the answers
to the unknown???**

Richard Blankenship

Without a rigid foundation of Geometry, mathematicians are basically writing their own sentences and the human interpretation of the math has not always been accurate. As a result strange abstract concepts of black holes, multiple-dimensions, the collapse of the wave function under observation, and Heisenberg's uncertainty principle are necessary to justify calculated results.

It is possible to model all components of a system under measurement... but only after we can make the *proper distinction between mass and Matter....* which no other theory to date can provide. It would revolution our understanding of Quantum geometries/interactions. Tetryonic Theory facilitates development of a whole new field of physical math based on equilateral triangles in lieu of the spherical geometries historically employed. Tetryonic Theory in short allows us to see and model the hidden geometry of the universe.

Saturday Aug 12 - 6:30PM

**Understanding
Quantum Health**

**Raise Your Voltage For A
Healthier Mind And Body**

Ralph Suddath

Advancements in technology and our increasing understanding of the body electric form the backbone of a new anti-aging program focused on enhancing life span while improving the overall quality of life. By increasing the voltage of the human body we can now stop diseases before they happen. Raising your body's voltage not only boosts overall energy levels for optimal and sustained physical and mental activity, it also helps heal your body quicker and strengthens your immune system. **Simply raising your voltage makes you a much healthier individual overall.**

Here you will learn the basics of your body's electrical system as well as how the body creates and stores the bioenergy required for its optimal performance. The revolutionary Quantum Wellness Spa integrates quantum and zeropoint technology to turn the tables on cancer, heart disease, diabetes, dementia and other looming illnesses.

Mind-Interface Technology Method to Detect the Mind's Residual Effect

Robert Plotke

For our purpose there *must* be a distinction between the brain and mind in this way; to control a physical device with the brain, the brain waves must be accessed by implants or electrodes placed on the skull (EEG). The brain-wave signals are processed, and changes in brain-wave characteristics are used to control electro-mechanical devices. When there is an effect on a mind-interface technology device *without* the use of implants or electrodes, we do not use the term *brain*, instead we use the term *mind*.

The mind-interface technology is safe. There is no energy sent to the body. There are no sensor connections to the body and no brain/surgical implants. Our technology is strictly at the effect of mental intention.

How does it work? Our technology creates a subatomic source. The effect of mental intention is the creation of greater order in the subatomic source. A characteristic behavior of the subatomic source is measured. The greater order detected while processing the subatomic source measurement values is represented as an orderliness metric. The metric is then used as the device control output.

Limited tests indicate a residual effect of mental intention. With a more extensive participant sample and rigorous methodology the residual effect may conclusively be proven, making a case for memory stemming from the mind and not the brain.

How The Tin Man Found His Brain...

Danute Debney Shaw

Why the "Tin Man" metaphor? The answers are already within us and require discovery and implementation. In these times there is an incredible need for the most powerful of decision-making. It's even more important than ever for everyone today and certainly entrepreneurs. This need was always there, but now, with the speed of technology and vast amounts of information, we must clearly discern fact from fiction; founded information from opinion, inspiration from unfounded fantasy. Not only do we need to comprehend but to discern and to work from a place of wisdom

in our thoughts, plans and actions. To work with vision and perception as well as creativity and imagination. This is what life is about not to mention all good science and business.

Nikola Tesla invented and/or contributed to the invention of a countless list of technological advances. Everything from electrical current, wireless transmission to robotics and more. This was accomplished not just by reason and logic alone, but by the incorporation of vision, imagination, insight and creativity. All men and women who achieve a personal sense of success, fulfillment and even greatness, draw upon these same resources. We may not all be Teslas, but yes we can achieve our own form of person greatness by employing the same type of inner tools and developing our skills whether for our business, entrepreneurship or in the happiness and satisfaction of our daily, personal lives.

COGNYVA Brain Therapy Machine!

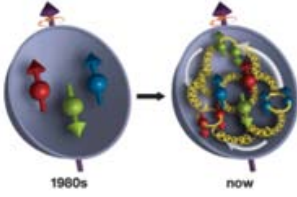

INCREASES THE ENTIRE VITALITY OF THE HUMAN BRAIN

Ralph Suddath

Euphorion's brain boosting treatments are non-invasive neuro procedures with a wide range of beneficial effects on the brain. Better sleep, improved memory and energy, and a more positive, energetic state of mind are few noted changes. *Euphorion* uses light antenna technology to stimulate, regenerate, and heal brain cells in dormant sections of the brain. In the near Future that we may well become superhuman by *maximizing our human brain potential*.

Euphorion brain treatments activate regions of the brain that promote alertness, and improves cognitive performance. It can also help to stimulate the process of nerve conduction, promote the differentiation of neural stem cells, and improve the oxygen content of red blood cells and blood circulation. This can help reduce the cognitive effects of aging. Enhancing cognitive performance changes the lives of millions suffering from memory loss, neurological or psychological disorders. . It also penetrates the blood-brain barrier providing your mind with an abundance of hydration and fresh energy. Fluids flow throughout your whole body more freely which provides your brain with more energy and all the fluids it needs which enhances your mental clarity.

EUPHORION is known to be effective in alleviating symptoms of Traumatic Brain Injuries and as a treatment for Dementia patients!

Gravity Control and UFO Technology

Lucian Ionescuc PhD

Gravity is not a fundamental force! It is a quantum effect, a correction to the electric force due to quark structure of protons and neutrons. More importantly it can be controlled using Dynamic Nuclear Orientation, ubiquitous with today's Magnetic Nuclear Resonance technology.

Frederique Alzofon performed experiments confirming the theoretical model, and conversely, his approach now has a solid modern foundation at the level of Elementary Particle Physics.

Implications for other attempts towards achieving anti-gravity, e.g. Searl Generator and Russell Anderson's work, in an attempt to help the progress with these approaches.

In another direction, simple experiments a garage-lab level using rotating masses and a pendulum will reveal Gravity phenomena akin to EM induction. Engineers are invited to build such equipment to duplicate here in US (and at the TeslaTech Conference) results obtained in Hungary by D. Sarkadi. The schematics of the experiment will be explained in detail.

In light of the new Theory of Gravity, the amazing UFO capabilities of travel and landing will be documented and partially understood (How hyperjump capabilities are achieved will only be conjectured, using disclosures by ... working at Area-51). Insight into the Secret Space Program will be provided.

Reverse Engineering of the Alexey Graviflyer

Mike Gamble

Alexey Chekurkov, a Russian researcher, developed an antigravity device utilizing counter-rotating magnet-electrostatic fields. The middle stationary plate – charged by a Tesla coil – acts as an electric barrier to separate fields created by the hi-voltage charged upper and lower rotating plates. According to internet literature, everything must be in resonance – all three charged plates and the ultrasonic sound or vibration. Featured on YouTube, plans and kits are available for this flying wonder.

A few guys from TeslaTech and also the APEC conference have bought these Graviflyer demo kits. However, so far no one has yet been able to actually get one to fly (lift off). Some of these guys twisted my arm and I accepted the challenge of doing some professional (reverse) engineering to help them get a Graviflyer working. The basic unit has too many variables and loose ends which makes it very difficult to tune it to running resonance.

Some clues can be found in a 2018 paper by Walter M. Nowosad, Jr. titled: The Alexey Device -- Observations And Questions About His Electrical Schematic And How It May Work Can Be Found On Rex Research! Will use standard engineering practices to correct/eliminate (or reduce) most of these loose ends which are causing the startup resonance problems. The goal is to change the Graviflyer system's "Art" to a "Science" and with a little luck a flying demo!

Alien Drive Systems

Controversial Research with Roswell Roots!

Russell Anderson

The UAP phenomenon/alien extraterrestrial visitation has been ongoing for Earth for millions of years. The modern UAP-era started approximately in 1942 with the *Foo-Fighter* phenomenon, of *strange aircraft*, and USOs (underwater unconventional craft). Sightings and recorded visitations of non-conventional aerospacecraft and the entities some carry had increased exponentially since the end of the WWII. Alien cultures may have shared with the world the secrets of their unconventional

but effective propulsion systems that do not depend on heat energy or destruction of matter or atomic structure to provide inertialess propulsion, anti-gravity, hypersonic travel in the atmosphere (with no sonic-boom), and interplanetary and interstellar travel in reasonable time and economy.

Gravity control propulsion research had been the subject of widely published UFO literature. Leaders of UFO research community have suggested incorporation of reverse engineering of recovered extraterrestrial vehicles with the anti-gravity propulsion projects had enabled them to continue beyond 1973 to successfully manufacture antigravity vehicles. Branches of the military and defense agencies have denied and refuted such claims, but with the release of the new US NAVY Salvatore Pais Patents which the Navy claims are "operational", that impasse in dissemination of knowledge of the subject is rapidly changing.

Magnetically Treating Water with Frequencies

Robert M Haralick

A substantial amount of medical journals have articles about successful magnetic treatments for people who have a variety of ill conditions, yet there are no articles on what happens to water after being magnetically treated with different frequencies. After all, the body is about 70% water. In one experiment, we treated water magnetically with a 54Hz sine wave and resulted in a statistically significant decrease in the viscosity of the water. This is in contrast to the increase in viscosity that has

been observed for Pollack's Exclusion Zone (EZ) water. Our instruments that measure properties of the untreated and treated water include a refractometer, a densitometer, a viscometer, a tensiometer, a spectrometer and a vector network analyzer.

In this talk, we detail protocols and the results for magnetically treating water with audio frequencies in accordance with the Geesink/ Meijer discovery that cancer inhibiting frequencies fall into the set of life beneficial frequencies. Looking ahead, we expect the full import of these frequencies is that living organisms work by means of different parts of their bodies playing harmonic music, like a string section, woodwind section or percussion section of an orchestra, all making the music of a symphony. The complex organic chemical interactions such as protein folding also would have a corresponding musical harmony. Quantum Physicist Marc Henry agrees.

Brown's Gas Applications

Why better than pure hydrogen?

George Wiseman

Working with Brown's Gas since 1986, George Wiseman developed practical technology that optimized a number of various Brown's Gas applications (fuel saving, torch fuel-gas, radioactive neutralization, etc). In 1996 a 'WaterTorch' customer claimed he had cured a melanoma using Brown's Gas. Wiseman shared this information with other customers and many of them tried it on their various ailments, and they reported as-

tonishing results back. They convinced George to build Brown's Gas machines that were optimized for health applications.

Brown's Gas is a MIXTURE of several variations of hydrogen and oxygen, including a negatively charged cold plasma form of water he named Electrically Expanded Water (ExW). ExW works synergistically with hydrogen to make hydrogen more therapeutic.

Hydrogen is literally our most important nutrient; comprising 62% (by volume) of the average human body. But hydrogen is a FOOD and is inert by itself. Hydrogen cannot do anything without energy. Most sick people have compromised energy generation systems and have used up their energy reserves. ExW provides bio-available energy that helps the body use hydrogen for healing and health.

HYDREVA VFR* Water System

Next generation non-chemical alternative water treatment for your pool and spa!

Ralph Suddath

NO CHLORINE, BROMINE, SALT OR OTHER CHEMICAL SANITIZERS

For more than a hundred years, chlorine has been used to sanitize water. It is a respiratory irritant, and can even be deadly when breathed in high concentrations. Chlorine is corrosive to equipment, enclosures, and your pool. It bleaches and discolors hair, towels, and furniture. While no one enjoys swimming in chlorinated water, there has been no good alternative. Ionization, ozone, uv light and other alternatives have proven to be less than 100% effective, high in maintenance,

and expensive to operate. Salt generators have been the most popular choice available. While not having the odor of chlorine, however chloramines are still introduced into the water during the salt generation process.

Stagnant and unhealthy water is a breeding place for bacteria and algae. Water in motion, like in a mountain stream, is healthy and resistant to bacteria and algae growth. In a stream, water flows through many twist and turns which cause vortices, or small tornado-like movements. During its journey, water receives a purifying treatment from the sun and other elements of nature.

Hydreva recreates this process, sending its water through a series of vortices, twisting and turning it as if in a stream. It then imparts a resonant frequency causing the water to become bacteria and algae resistant, filling your pool with water that is safe, pure, and clean...

Free Energy Heat Pump

**Zero Point Energy,
Dynamic Casimir Effect
and Cavitation**

Dr Thorsten Ludwig

The world is in a severe energy crisis! People are desperate to find a new and economic way to heat their homes and power their devices. In Germany, more than half of the energy consumption is used for heating. The use of heat pumps with a COP of 3.5 and more has become common and so the introduction of overunity to a broad public has been accomplished. In this talk a wide variety of new experiments will be presented towards a real free energy heat pump. Building real hardware and thorough testing are vital for progress in free energy. Details on how the machines are built as well as on how to test energy efficiency on electric and thermic devices will be presented.

The quantum energy fills everything from empty space to matter. All particles, waves, systems and even space itself are pervaded with this energy. Several theoretical and experimental approaches to harness zero-point energy will be unveiled. A well established zero-point energy effect is the Casimir effect, a way to convert zero-point energy with simple metal configurations into a force. Ongoing projects aim to use this force for propulsion and generating electric power. Latest studies also include energy extraction in water plasma. There is a connection of ZPE to cavitation and sonoluminescence. Practical work will be presented on how to use this energy for heating homes and as process heat for commercial applications.

Beyond the Bedini Motor

**Off-Grid power for
blackouts & other
emergencies!**

Michael Crosswhite

The Bedini motor patented by John Bedini has been around for many years with thousands, possibly millions of replications. Now we need to go beyond the toy stage and make a useful tool. With increasing power outages across the US for various reasons, it is becoming necessary to have an off-grid power supply to charge phones/ tablets/ radios/ emergency equipment. I will show the general construction of a Bedini motor, how it works, demonstrate its operation, demonstrate processes to increase the basic operation, and demonstrate advanced extraction of energy from the environment that also demonstrates Tesla's one wire energy process. Demonstrations include:

1. Four simple components of the Bedini circuit.
2. The basic operation of the Bedini motor.
3. Increase the motor efficiency and output.
4. Energy flow from the environment.
5. Batteries charging by the Bedini motor.
6. Tesla's One Wire energy process.
7. How to multiply the energy output.

I will demonstrate how to charge Li-ion battery banks, non-rechargeable alkaline batteries, rechargeable batteries, car batteries and more. I want to show that anyone can understand, build, and use this valuable technology with hand tools and a soldering iron in their own backyard for just a few dollars!!!

Vendor Showcase

Not all of the new and exciting technologies make it on stage. Often, some of the best technologies are in the expo area. As a feature, we allow the vendors an opportunity to give a 5-10 minute presentation on the products that they brought to the conference. This activity is restricted to the vendors who are not speaking at the conference.

From Chaos to Coherency

Carbon, Water and Energy Potentials

Thomas F Bailey

Synergistic reinforcement of an effect is achieved through a coherent alignment of repetitive parts. Accordingly, lasers were born. Nanocarbon allotropes of unsaturated carbon atoms exhibit exceptional reinforcement of properties and thermodynamic stability through coherency-achieving alignment of carbon atom repeating units.

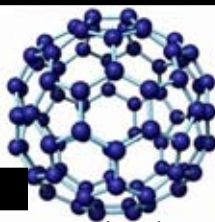

August Kekule discovered this phenomenon of enhanced thermodynamic stability 150 years ago as he solved the mystery of benzene's unique prop-

erties. A resonance stabilization energy resulted from a coherent alignment of carbon and hydrogen atoms with identical bond lengths and angles. So it is with planar graphitic allotropes of carbon and also curved fullerenes - making geodesic dome models a highly unstable proposal of nonuniform bond lengths and angles.

Kekule described a new bonding system beyond traditional and Pauling sigma/pi bonding concepts. Instead of individual solar systems of atomic electron orbitals of the Periodic Table, a new order of diffuse carbon atoms of exceptional properties and thermodynamic stability is achieved involving molecular orbitals creating a galactic Milky Way of carbon atoms. Coherency effects are also found in structured EZ water and in resonant sound waves. Destructive harmonics of coherency are found in bridges collapsing and geengineering.

A Pragmatic Approach to Infinity

Dan Stevenson

The most daunting hurdle to progress is unlearning false or incomplete notions that imprison us. True breakthroughs arise by thinking outside the box. Language is often the key barrier to progress. Accordingly, stubborn retention of Euclidean mathematics versus non-Euclidean conceptualizations holds physics hostage.

The reevaluation of C60 fullerene (buckyball) as a true sphere versus a truncated icosahedron provides an instructive case study. The geodesic dome concept possesses an invalidating Euclidean limitation. The non-Euclidean perfect sphere

of infinity overcomes this limitation thereby transcending the geodesic dome two-dimensional highly strained twenty aromatic six-membered ring components of the buckyball molecule of otherwise observed exceptional thermodynamic stability. Einstein's theory of relativity is consequently incomplete. The systemic law of unification overcomes the dilemma of opposites. In this incorporation of infinity, the relative values of infinity (zero and one) must be embraced.

In abandoning a focused exclusive concept of the finite, one must accept equivalence for approximation. Any number becomes an approximation of that number relative to the precision of the instrumentation measuring that numeric value. Being satisfied with familiarity to the extent that one can now build finite systems without rejecting their infinite qualities, always leaves the door open for further infinite visionary development.

Self-Healing Structured Water, Lasers & Salt

Joe Blanton

The number one cause of pain and disease in the body is dehydration. (No exceptions) Dehydration lowers the body's frequency from optimal wellness and forces the body into drought control, rationing water. Tap/bottled water is H₂O, Structured water is H₃O₂ and is also called hexagonal water based on the water molecule pattern and microclustering. New discoveries show there are free-floating Mitochondria in our blood. The Red-InfraRed, Green, and Violet-Blue lasers all have a unique impact on the mitochondria to not only produce more ATP, they also cause healthier

protein folding and stimulate stem cell production. Structured water energized with the red-infrared laser adds about 30% more life force energy and programming with more optimal wellness frequencies for our body, animals, and plants.

Dr Jack Cruz says we need to optimize our light, water and magnetism. The Red-InfraRed, Green and Violet-Blue lasers all replicate sunshine to our bodies and every photon in the laser beam energetically gives up an electron into the water/blood in our body just as sunshine and charges the water in our system.

The Hydration Ionizer replicates a mountain stream vortexing and optimizing the water as it passes through, structuring, micro-clustering, ionizing, energizing and programming with optimal wellness frequencies. Lasering the water with the lasers adds more life force energy and frequencies for our body... you can taste the difference!

Nikola Tesla's ExtraOrdinary Clean Energy Solution

Jeff Hayes

Most are not aware that today we are using only a fraction of Tesla's patented hardware. Developed in the late 19th and early 20th century, Tesla's energy plan developed an engine to provide affordable energy. Revealed here is Tesla's real energy solution, that has, by design, escaped both public and professional awareness.

Tesla discovered a new mechanical principle-- something as fundamental as James Watt's discovery of the expansive power of steam -- by the use of which it became possible to build a motor produces ten horse power for every pound of the engine's weight. This motor is so implicitly simple in design that the veriest novice in mechanics could construct it and so elemental that it could not possibly get out of repair. It can be run forward or backward at will so it could be used as either an engine or a pump. It cost almost nothing to build as compared with any other known form of engine, utilized a larger percentage of the available power than any existing machine, and, finally, it would operate with gas, steam, compressed air or water, any one of them, as its driving power... or pump any fluid without shearing forces.

It does not take a mechanical expert to imagine the limitless possibilities of such an engine. It takes very little effort to conjure up a picture of a new world of industry and transportation made possible by the invention of such a device.

ExtraOrdinary GEET Fuel Processor

... a new type of carburetor with
a miniature refinery built in!

David Pantone

Plasma, the fourth state of matter, is a field whose boundaries are being expanded by studies made possible by the GEET engine technology invented by Paul Pantone. GEET is based on a self-generated low temperature plasma field. Using GEET devices, Paul discovered 181 new phenomena. At least eight "Unidentified Fields of Energy" around GEET have been observed. The lack of a common terminology and methodology makes it difficult to validate and replicate new discoveries. Here are some fundamental observations...

To locate where the Reactor Rod is positioned while running, use a hand held digital thermometer. When the thermometer reads it is the hottest, this indicates the center of the Reactor Rod. This is a false reading. Though the thermometer indicates a hot spot, it is not the hottest spot. Something "inside" the reaction chamber is causing the false reading that allows us to determine that the Rod is at that exact location.

Another strange observation is the Auric Field. Once a Reactor Rod is used for 30-minutes, it holds a signature indicating if the fuel was matched to the Reactor Rod for maximum efficiency. A test to validate the correct length, is by using a compass. When the Rod is "broke in" the compass will show it has a North and South! If the magnetized rod is placed in backwards, it will prevent plasma from generating!

Abrupt Electric Discharge

The Thunderclap Engine

In Honor of Walt Jenkins...

Moray King

Walter Jenkins, inspired inventor and popular TeslaTech speaker, passed away October 8, 2022. His patent, US 10,648,430 (May 2020), covers two inventions: 1) a means to mimic a thunderclap explosion in an internal combustion engine with just charged fog, and 2) using a small amount of gasoline to do it easily with today's ignition systems. Excess energy manifests because the charge fog particles convert to microscopic ball lightning

plasmoids, which exhibit a self-acceleration phenomena. The excess energy was discovered by Ken Shoulders, US Patent 5,018,180 (1991), who later named these plasmoids "exotic vacuum objects" because they appear to cohere the vacuum zero-point energy to manifest excessive force.

For the pure thunderclap, an ultrasonic pond fogger is used with high voltage electrostatic grids to make the strong, charged fog particles. It requires a large capacitor discharge into a wide-plasma spark plug in order to surround the charged fog microscopic water droplets with plasma to cause them to dimple into the torus plasmoid form.

By means of a small amount of gasoline layered on top of the water in the fogger chamber, the fog droplets acquire a thin film of gasoline, which combusts easily to surface plasma on each particle via a simple spark plug to yield an abundance of plasmoids.

Relax Far Infrared Saunas

*"Find me a way to create sweat or fever
and I will cure disease."* ~ Hippocrates

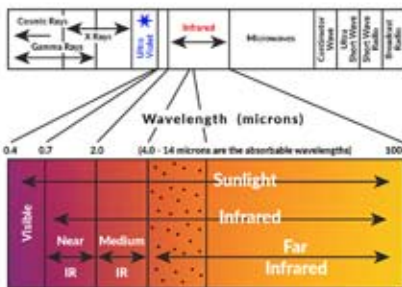

More Energizing and Relaxing than any other Infrared Sauna

Relax Sauna can Increase Body
Temperature 3° in 25 Minutes,
Significantly More than Any
Other Sauna

Increasing Core Temperature

- Mobilizes Lymphatic and Immune Systems
- Increases Circulation and Microcirculation
- Activates Parasympathetic Nervous System
- Oxygenates Cells, Giving Greater Absorption
- Helps Mitochondria Create ATP + Nitric Oxide

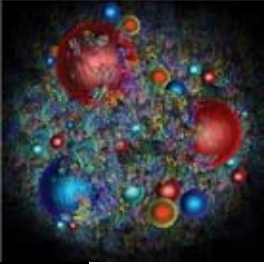

**Get the Best
Detox with more
Loving Light
Than Any Sauna**

It took 10 years for the Relax Sauna company to discover how to filter out the near and mid infrared giving you only pure 4-14 micron far infrared light.

Macrocosm &
Microcosm**

Danny Dubrall

The origins of the material space spring from the Ætheric. The two comprise a duality with energy flowing back and forth between them. Matter is formed when the Ætheric (Dark Mater) is compressed at each Plank interval into the ‘foam’ particles of space-time, producing a “trembling motion” in the quantum field. These tiny particles provide sustainable energy for the larger particles of nature. As a result, natural particles are sustained; others decay for lack of a tiny compatible particle to maintain them.

The Nature of Nature is to create particles. So the boundless Æther creates the Quantum, which in turn supports the sub-atomic, which supports high-level particles and gravity, then atoms. Strong, Weak, Charge and Anti forces arise from frequency interactions within a pressurized Quantum environment. Light as a force exists as a wave in the Æther. When a wave encounters a material object – the interaction is with the compressed Æther within the object. This interaction creates a photon that satisfies the event and converts it back to an Ætheric wave. A particle’s mass is known to nature by the sustainable energy it requires, creating a pressure deficit in the quantum field.

A new characteristic of particles is that they carry their history with them in a frequency sub-band, which makes each unique in a small way.

**TransDimensional String Theory
bridges science and spirituality
with information encoded light**

This perspective may suggest methods to enhance development of more efficient free energy devices. Cutting-edge Quantum Information Science, formally coined by the 2022 Nobel Prize awarded in Physics, may lead researchers to more fully bridge consciousness knowledge with the Standard Model. Esoteric Spiritual Sciences can offer additional clues to span current unknowns. Key features, processes or common denomina-

**Ward Force
Antigravity II**

**Patented Device
Unlocks Gravity!**

Steven Ward Sr

An energy producing magnetic converter patented and published by the US Patent office in 2009, is only one very small benefit from the discovery of *Wardforce*. The first sentence in the abstract of USPTO 7531930 states:

An energy producing magnetic converter is provided that outputs both electrical and mechanical energy.

Nowhere in the world will they patent perpetual motion applications. I had to prove that *Wardforce* existed, before the USPTO would accept my application for US Patent 7531930.

Wardforce can be defined as the force part of the magnetic field that controls forward and backward motion, attraction and repelling. Pinch you finger, a current goes up your arm... in simple terms a current is defined as the Magnetic Field in motion. This which controls that motion is *Wardforce*. I can demonstrate energy from magnets using junk.

Incredibly, space travel can be demonstrated on a bench right in front of you. When demonstrating, space travel, gravity and anti-gravity are defined by duplication. It also proves that gravity can be made. Think of what this knowledge can do for the space program. Keep in mind that I am using junk for these ongoing experiments and demonstrations. Image what could be done with the proper resources and personnel!

tors such as entanglement, angular momentum, mono- and bi-polarity, or sacred geometry will be highlighted in this presentation.

The information encoded process begins with Dark Light (dark photons) transforming into the visible EM range through an innate intelligence process. These photons mediate electron packets whose underlying dynamic wave motion, in combination with other forces, create myriad particles and forms. Physicists use laser light to reflect the innate holographic, geometric form of a single photon in the shape of a Maltese cross, the same shape as a proto cell called a Chondriana. Laser light has been shown to transfer a person’s healthy DNA information to a close relative to heal malignant cell growth. Similarly, DNA information from a duck embryo has been transferred to a chicken embryo resulting in a live chicken exhibiting duck characteristics. These highlight the transfer of Information through encoded light!!!

hydreva

NEXT GENERATION WATER TECHNOLOGY

Hydreva is the world's first commercial quantum energized water treatment system. This technology goes beyond all conventional methods including ionization, ozonation, UV light treatment and current chemical purification methods.

Hydreva restores the natural crystalline structure of water which raises its vibrational field with the use of Vortex Frequency Resonance (VFR).

This is an emerging technology that combines vortices, electricity and the ability to program beneficial frequency patterns into water allowing it to have a more natural vibrational state.

Hydreva LLC is the first company to introduce and launch a commercial and industrial energized, living-water system using this patented water discovery. Our goal is to bring energized-living water to the forefront of the wellness and lifestyle markets across all (residential, commercial, industrial, hospitality and municipal platforms).

2023 ExtraOrdinary Technology Conference

Albuquerque, NM • August 9 - 13

Conference Early PreRegistration Form

Information so HOT... it NEEDS to be Suppressed!

Register by Jun 30, 2023 for 25% Discount on Registration!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have WORKING HARDWARE! We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Get inside technical information you won't find on the internet!

Conference Notes:

- **Video Recordings.** DVDs will be available during and after the conference. *Private taping is not allowed.* Conference fees do not include DVDs.
- **Family Discounts.** Spouse rates available to immediate family accompanied by *members*.
- **Individual Sessions.** Individual session rates are available at the door on a *space available* basis only.
- **Hotel: Crowne Plaza...** includes free breakfast buffet and free internet.. This **IS** the best price/service combination possible and convenient..
Make your reservations early at TeslaTech's special group rate starting at \$82 per nite.
- **Refund Policy.** Exchange only.. no cash refunds. Service fee of \$25 on all refunds. Refund credit for goods/services produced by TeslaTech only.

Cancellations after Jul 31, 2023 & "No Shows" are non-refundable

Conference PreRegistration Rates

Type Attendee	Rate	# Att	Cost
Member/Nonmember	\$ 399.95		
Spouse	\$ 349.95		
Students	\$ 299.95		
Teens (19 and under)	FREE		
Wed Workshop	\$ 49.95		

List spouse/student/additional attendees:
