2008 ExtraOrdinary Technology Conference

UNM Student Center • Albuquerque, NM • July 31 - August 3, 2008

CONFERENCE PROGRAM OVERVIEW

DVDs WILL BE AVAILABLE AFTER CONFERENCE!

TeslaTech, Inc reserves the right to make changes to this schedule without notice.

Thursday • July 31

Session 1 (Evening) • An ExtraOrdinary Expedition

5:00PM: **Brooks Agnew, PhD** - Case for A Hollow Earth

7:00PM: *Conference Evening Social*

Friday • August 1

Session 2 (Morning) • ExtraOrdinary Health Issues

8:00AM: **James Bare DC** - Reconstructing Rife Technology

9:30AM: **Dr. Omar M. Amin** - Understanding Parasites in the US

11:00AM: **Len Horowitz** - Healthcare's Greatest Risks and Blessings

Session 3 (Afternoon) • ExtraOrdinary Research

1:00PM: **Ron Nott** - Lightning - Its Nature and Its Prevention

2:30PM: **Harvey Fiala** - Inertial Propulsion Devices

4:00PM: **Tai Robinson** - Alternative Fuels Today!

Session 4 (Evening)

6:00PM: *Conference Evening Social*

Saturday • August 2

Session 5 (Morning) • Zero Point Energy Technology

8:00AM: **Thorsten Ludwig** - Emerging European ZPE Technologies

9:30AM: **Moray King** - Water Cohering Zero-Point Energy

11:00AM: **David Yurth** - Y-Bias and Angularity From Zero Point to Infinity

Session 6 (Afternoon) • Alternative Energy Technology

1:00PM: **Moshe Daniel, ND** - The Moe-Joe Cell: Spherical Prototype of the Joe cell

2:30PM: **Valeriy Maisotsenko** - Energy from Air - The Maisotsenko Cycle

4:00PM: **Sir Charles Shults** - Developments in Solar Energy

Session 7 (Evening)

6:00PM: *Conference Evening Social*

Sunday • August 3

Session 8 (Morning) • ExtraOrdinary Challenges

8:00AM: **John V.Milewski, PhD** - Superlight and Other Forms of Magnetic Energy

9:30AM: **Charles Ostman** - Nano Materials, Fabrication Processes, and "Greentech"

11:00AM: **Roulette Wm. Smith, Ph.D** - Development of Common Sense and its Disorders

Post Conference Event

Sunday Afternoon

August 3 -- 1PM

GEET Seminar

Forrest Pittman

Thursday • July 26 • Session 1 (Eve) • An ExtraOrdinary Expediton

A Serious Case for The Hollow Earth Brooks Agnew

Agartha is one of the most common names cited for the society of underground dwellers. Shamballa, its capital city, has also been referred to as the Forbidden Land, the Land of White Waters, the Land of Radiant Spirits, the Land of Living Fire, the Land of the Living Gods and the Land of Wonders.

Hindus have known it as Aryavarttha, the land from which the Vedas come; the Chinese as Hsi Tien, the Western Paradise of Hsi Wang Mu, the Royal Mother of the West; the Russian Old Believers, a 19th-century Christian sect, knew it as Belovodye and the Kirghiz people as Janaidar. In Asia, it is known by its Sanskrit name, Shambhala, meaning 'the place of peace or tranquillity.'

As you see, the religious and scientific idea of a hollow Earth has been around for centuries in exotic places like Scotland, Egypt, and Tibet and by 1692 reached notoriety with Edmond Halley's support. Once a popular concept, by the 1900s, it received little serious attention. Even though claims such as Admiral Byrd's flight, and rumors of a Nazi hideout were made, the theory was not supported by modern science.

Now... Brooks Agnew is preparing to lead a team of scientists to explore the Arctic Ocean and attempt to penetrate the earth. Join us as he lays out the foundations for his belief that Agartha exists, and how he expects to find it to lay the rumors to rest once and for all!

Conference Lodging Facilities

Limited space... Please register by June 21!

Clubhouse Inn & Suites

315 Menaul Blvd. NE
Albuquerque, NM 87107

Hotel Reservations:
(866) 345-0010

albuquerque.clubhouseinn.com

Getting to the ClubHouse...

Southbound – Exit #227 (Candelaria, Menaul) stay on the frontage road for approx. 1.5 miles to Menaul. You will see the hotel on the right.

Northbound – Exit #225 (Lomas, University, Menaul) the frontage road for approx. 1.5 miles to Menaul. Turn left at the light, under the highway, the hotel is directly on the right.

Westbound – Exit #159D (University) right onto University, 1 block to Menaul, left onto Menaul, under the highway, the hotel is directly on the right.

Eastbound – Exit #159A (University and local traffic) at bottom of ramp turn left on 4th Street, approx. 1.5 blocks to Menaul, turn right. Go 4 blocks on Menaul, on left look for T-Mobile Offices, turn into their parking lot – go past their visitor parking into hotel parking lot.

Conference Evening Social

Meet the Speakers
... and New Friends!
Thu/Fri/Sat 7PM
UNM Student Center

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. Its a great opportunity to make new friends that share your interests. We even provide some refreshments!

Located just off I-25 & I-40

Be sure to request our special
TeslaTech
ExtraOrdinary Technology
Conference rates!

Hotel Amenities

For comfort and convenience,
hotel amenities include:

- Free Shuttle service within a 5-mile radius (includes conference site)
- Free Breakfast Buffet
- Free local calls/no surcharge on cards
- Clean, fresh, comfortable rooms standard with a coffee maker, iron and ironing board, free high speed wireless internet access, and free local calls!
- 24-hr FAX and copy services

The University of New Mexico is located along Historic Route 66 (Central Avenue), just two miles east of downtown and Old Town. The **UNM Student Union Building** (shown above) is located about a half mile east of University (a major North-South street) and about a block north of Central Avenue. On campus parking requires a paid permit Monday-Friday (available at the lot or garage). However, it is free on Saturday and Sunday only.

SUB Dining and Other Convenient Facilities

Higher Grounds is the upscale eatery where you can sit, relax and savor fine New Mexican coffees, espressos and lattes. It also features daily prepared gourmet sandwiches, and pastries.

There are other dining facilities located in the SUB. However, since our conference is during the summer break, only a few will be open based on conference attendance. Some of the more likely ones to be open are:

- **Sonic** has a variety fast food items on its menu.
- **Chick-fil-A** features its famous chicken sandwiches, nuggets, fresh salads, fries and coleslaw.

The **Mercado** convenience store is at the plaza level north entrance and is stocked with plenty of grab and go items!

ATM Machines

For your convenience, the SUB provides four popular bank ATM Machines on the Plaza Level of the building. The featured banks include, **Wells Fargo, Credit Union, Bank of Albuquerque, and Bank of America.**

Conference Site: Student Union Building University of New Mexico Albuquerque, NM

The **Student Union Building (SUB)** is located on the southside of the campus. On the map below, it is shown about a block north of Central Avenue.

POST CONFERENCE ACTIVITY

Sunday Afternoon

Sun Aug 3 • 1PM-3PM

GEET Seminar

Forrest Pittman

The first working prototype was developed long before the technical analysis was attempted. Plasma research is a fairly new field of acceptable science. The technology used in the GEET Fuel Processor is a combination of the most basic scientific principles, most of which falls within the normal rules and of thermodynamics. But some of the 70 simultaneous phenomenon are not found in those books, since it is the combination of events, which is the body of this discovery. Put quite simply, the exhaust heat is transferred to the incoming fuel vapor, which must be maintained in a vacuum, and the overall configuration provides a molecular breakdown within the vacuum of all of the heavier elements. Therefore, intensifying the vacuum, the speed of molecular breakdown or reaction is magnified, and less heat is required.

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines running on GEET technology have consistently shown tremendous reductions in emissions. Early efforts for this groundbreaking experimental technology centered on small engines. Now, plans are even available for automobiles.

Healthcare's Greatest Risks and Blessings

Leonard Horowitz
DMD, MA, DNM, DMM

Generally overlooked by mainstream media and medicine, Dr. Leonard Horowitz's work focuses on the organizations and institutions that profit from global genocide and population control under the guises of public health and national security. A stunning glimpse into the politics of medicine, which appears to be controlled by a global petrochemical-pharmaceutical cartel, should inspire everyone to take control of their own health. This politically sensitive information is vital to intelligent decision-making.

It concerns effective preparedness against outbreaks, nuclear explosions, and other disasters that may occur during the Age of Bioterrorism which medical pundits predict will devastate global populations and prophets proclaim heralds the Messianic Age. Most assuredly, the Spiritual Renaissance is accelerating, as are rates of morbidity and mortality among our friends, family and global community.

This brief presentation summarizes the world's greatest challenges and opportunities impacting natural healing and energy medicine with an inspiring view towards winning against all odds. This is truly an extraordinary message of hope at a critical time in human history.

Understanding Parasites in the United States

Omar Amin PhD

While media attention is focused on our food supply being compromised by bacterial infections such as *salmonellosis*, we face other growing threats from a variety of parasites. For instance, the Ascaris round worm grows to a foot long and is devastating. Infection can occur by eating unwashed fresh vegetables (lettuce) contaminated with soil fertilized with infected human waste. Heavy infection can cause blockage of the intestinal tract, penetration of the gut wall, and peritonitis. Larval worm migration damage lymphatic, respiratory, and hepatic tissue. The diagnostic egg of the one foot long Ascaris round worm (shown above) is detected in fecal samples.

This power-point presentation covers the diagnosis, pathology, and treatment of human parasitic infections in the United States. A brief introduction to laboratory procedures, misdiagnoses/mistreatment, and impact on public health is made. The following section provides a systematic treatment of protozoan and helminth (worm) parasites, emphasizing epidemiology and exposure, symptoms, gross pathology, and herbal and allopathic remedies.

All topics are presented with illustrative labeled pictures of the various kinds of parasites and their gross pathology in human tissues. Armed with this knowledge, you can take precautions!

Frequency device usage is growing at an exponential rate due to two reasons – cost effectiveness and treatment effectiveness. These two reasons have resulted in the production of over 1 million frequency devices of all types. It may be hard to believe, but such numbers are probably low! Frequency devices take many forms, and range from the simplest zappers and LED's to complex pulsed Radio Frequency transmitters. Treatment via frequency devices is part of our future.

This presentation explores the claims of efficacy that are applied to frequency instruments based upon concepts and understandings that were developed over 70 years ago. Many of these concepts are wrong, many are outdated, and many are no more than urban

Reconstructing Rife Deconstructing Myth.

Turning Urban Legends Into A New Science

James Bare DC

legends. Modern scientific discoveries and understandings behind the operation of frequency devices will be discussed as well.

The lecture will expose the errors of the past, and take people in new directions which have not been discussed publicly before. Some of the topics to be discussed will be

- frequency control of specific genes;
- the upcoming revolution in the treatment of genetically linked disease;
- the "bioelectric effect";
- creating new frequencies;
- cancer treatment and the treatment of infectious diseases.

Extensive research reveals that how frequencies work to create physiologic effects is something very different than once believed!

TeslaTech Books By Mail

Home of the Best Kept Secrets of Science

Secrets of Antigravity Propulsion

Tesla, UFOs, and Classified Aerospace Technology

Paul A. LaViolette, PhD

Learn the secret history of antigravity experimentation -- from Nikola Tesla and T. Townsend Brown to the B-2 Bomber. The existence of advanced gravity-control technologies, under secret military development for decades is revealed. Included among the secret highlighted projects is Project Skyvault's attempt to develop an aerospace propulsion system using intense beams of microwave energy similar to that used by the strange crafts seen flying over Area 51.

Using subquantum kinetics (the science behind antigravity technology) -- LaViolette reviews numerous field-propulsion devices and technologies that have thrust-to-power ratios thousands of times greater than that of a jet engine and whose effects are not explained by conventional physics and relativity theory. Controversial evidence about the NASA cover-up in adopting these advanced technologies, Russian research to duplicate Searl's levitating disc and the Podkletnov gravity beam experiment are covered.

300003- Secrets of Antigravity 24.00

Decoding the Human Body-Field

The New Science of Information as Medicine

Peter Fraser, Harry Massey & Joan Parisi Wilcox

This work introduces a revolutionary system that reestablishes the proper flow of information to the body's energetic fields to promote health. After decades of research, Peter Fraser has formulated a system that unites the meridian system of traditional Chinese medicine with quantum wave theory to provide the first comprehensive link between the human body's biochemistry and bioenergetics. He explains that we each have a body-field based on twelve meridian-like channels that process and coordinate information throughout the body and that our health depends on the proper flow and communication of information through these channels.

In *Decoding the Human Body-Field*, Fraser and Massey describe in detail their revolutionary Nutri-Energetics System, which uses Infoceuticals--liquids infused with organic colloidal minerals that are imprinted with corrective quantum electrodynamic information--to remedy distortions and blockages in the information flow of the body-field. The imprinted information acts as a magnetic signpost to engage the body's self-healing ability.

300008-Decoding Human Field 18.95

Forbidden Science

From Ancient Technologies to Free Energy

Edited by
J. Douglas Kenyon

This extraordinary book reveals how orthodox science disallows inquiry that challenges the status quo-- even when it produces verifiable results. It highlights cutting-edge, heretical, or suppressed scientific research, by researchers including Immanuel Velikovsky, Nikola Tesla, Rupert Sheldrake, and Masaru Emoto. It explores science and technology that has been suppressed by the orthodox scientific community-- from the true function of the Great Pyramid and the megaliths at Nabta Playa to Velikovsky's astronomical insights, free energy from space, cold fusion, and Rupert Sheldrake's research into telepathy and ESP.

There is an organized war going on in science between materialistic theory and anything termed spiritual or metaphysical. The absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box. This mentality is interested in preserving funding for its own project. From Tesla's discovery of alternating current to Schoch's re-dating of the Sphinx, this is a compelling introduction to the true history of alternative original research.

300005- Forbidden Science 18.00

Pyramid Power

This bestseller offers fascinating information on pyramids, and how you can make pyramid power work for you!

Max Toth &
Greg Nielsen

The topic of controversy, *Pyramid Power* has captured the imagination of millions all over the world who have used these mysterious energies in research and to create a better life style. Pyramid Power, the secret energy harnessed by the ancients, preserves food stuffs, amplifies thought forms, and increases sexual vitality. Here is the latest fabulous and provocative information on pyramids around the world, instructions on building your own pyramid, and suggested experiments. This bestseller on pyramid energies offers fascinating information on pyramids around the world, and how to make pyramid power work for you.

300004 - Pyramid Power 12.95

Lightning - Its Nature and Prevention

Ron Nott

More than a century ago, Nikola Tesla created artificial lightning by fully understanding high voltage principles. Using the same principles it is now possible to prevent lightning strikes from occurring. Not with lightning rods which conduct lightning energy to ground creating a destructive EMP, but by discharging the energy via many harmless small currents flowing into the air. This very successful method is opposed by the lightning rod industry.

In addition to examining lightning as well as natural atmospheric electricity, we will introduce a totally new device for removing EMPs from electric power lines. Most of the damage to electrical and electronic equipment is the result of lightning striking power lines and then entering buildings on these lines. Both Sandia National Laboratories and Los Alamos National Laboratories refused to test and research this device apparently because its principle of operation is similar to the secret plasma cannon, a weapon that is likely one of Tesla's inventions. However, it could be used for the peaceful purpose of eliminating EMP energy from power lines if not blocked by our government and the lightning rod industry.

Practical Inertial Propulsion Devices

Harvey Fiala, MSEE

Three separate processes that do not require a propellant and do not produce an equal and opposite reaction against any external form of matter in the Local Inertial Reference Frame and do not violate Newton's Laws in the Universal Reference Frame will be presented. A fourth process that also produces inertial propulsion will be presented, but it is not considered practical to implement.

Two of the processes rely on the earth's gravitational field as an external force. A second form of inertial propulsion relies on a magnetic field being substituted for a gravitational field. Two processes are examples of converting the rotary motion of a spinning rotor into unidirectional linear motion (the process using a gravitational field has

This is a great opportunity to learn about All-American renewable energy products and cleaner fuel options that work with today's infrastructure and beyond. These include multi-fuel, hydrogen, methane, propane, electric, biodiesel and ethanol automobiles, appliances and infrastructure. This information can help you to reduce your carbon footprint on the planet and declare your energy independence.

In addition to ethanol, H₂, CNG, biodiesel and propane among others, we will take a look at clean, solar hydrogen. Since factory-built clean fuel models are rare, most of us must convert our vehicles to break away from mainstream fossil fuels. While custom

Two Rotor Vertical Motion

Horizontal Motion Inertial Propulsion

been successfully tested). Due the law of conservation of angular momentum, this is normally considered not possible, but with the proper use of an external field (for example, gravity) and the phenomenon of precession, it becomes possible. A clear distinction will be made between a simple rotor and a gyroscope which is a far more complex device. If conditions permit, a live demonstration will be given.

Alternative Fuels TODAY!

**Made in the USA!!!
Renewable Energy Products
and Cleaner Fuel Options**

Tai Robinson

engineering is available, our emphasis is on products that can be successfully deployed on a commercial basis. Mass commercialization is the final target and we need volume production to drive down the cost. The best utilization of our technology is to mass produce it on the assembly line by the OEM's.

Currently, the technology exists to provide everyone the ability to use the cars and trucks of their choice with relatively "clean" fuels. At today's gas prices, the clean fuel option can be less expensive to operate! Reduced demand for gasoline is necessary for both national security and our economy. The status quo is unacceptable.

Auto Engine GEET Plans

by Paul Pantone

This retrofitted Suburban has been driven **THREE** times across the US

WARNING: ALL GEET Plans are to be considered experimental! No guarantees are made as to their accuracy or feasibility!

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines using GEET technology have consistently shown tremendous reductions in emissions. Early efforts centered on small engines. Now, plans are available for automobiles. Purchase your set of *GEET Fuel Processor* plans and build a GEET for your automobile engine. Replacing a catalytic converter or some expensive air pollution control device? *Now* is an excellent time to consider installing a GEET device. Plans include a license to build and install one device (GEET is a patent-protected technology). These Official GEET Fuel Processor Plans are for **personal use only**!

750002- GEET Single Auto Plan .. 250.00

Energy Machine of T. Henry Moray

Zero-Point Energy &
Pulsed Plasma Physics

by **Moray B. King**

In the 1920s Moray invented a "free energy" device that produced 50 kW of electricity. Unexplainable by orthodox science, the electricity exhibited a strange "cold current" characteristic where thin wires could conduct appreciable power without heating. Moray suffered ruthless suppression. In 1939, the device was destroyed. Today, modern physics finally recognizes the vacuum contains tremendous energy called *zero-point energy*. Other inventors have discovered it is activated by pulsing plasma, and created novel energy devices, but they too were suppressed. The common pattern of these technologies clarified the fundamental operating principle. Free energy that works! Truly an inspiration for engineers and inventors, this is a **MUST** have book (200pp)

450003-Energy Mach of Moray 14.95

Electric Motor Secrets

by Peter Lindemann

Laying dormant within the modern electric motor is a deep, dark secret. For the last 176 years, that secret has held the electric motor to its present level of performance. But in 1975, a quantum leap in electric motor design was made by an American inventor named Bob Teal. Teal's Magnipulsion Engine produced COPs between 8 and 10. Using lab demonstrations, patents, diagrams, and private documents, Dr. Peter Lindemann takes you on an extraordinary trip through the history of electric motors, resurrecting the secret of Magnipulsion, and revealing the future of efficient electric motor design. **MUST HAVE DVD!** (2hr 26 minutes)

Basic Electricity

US Bureau of Naval
Personnel

Originally a training course, its the best non-technical coverage on electricity. Topics include batteries, circuits, conductors, AC and DC, inductance and capacitance, generators, motors, transformers, amplifiers, etc. Many questions with answers.

390001- Basic Electricity 15.95

Basic Electronics

US Bureau of Naval
Personnel

This clear, well-illustrated introduction to electronic equipment covers the safe use of electronic

devices and basic test equipment, plus numerous essential topics: electron tubes, semiconductors, electronic power supplies, tuned circuits, an introduction to amplifiers, receivers, ranging and navigation systems, an introduction to computers, antennas, AM/FM, and much more. 560 illustrations.

390002- Basic Electronics 18.95

Tools and Their Uses

US Bureau of Naval
Personnel

Teaches names, general uses, and correct operation of all basic hand and power tools, fasteners, and measuring devices you are likely to need. Also, grinding, metal cutting, soldering and more.

Hubble Mosaic
of the Majestic Sombrero Galaxy

Y-Bias and Angularity From Zero Point to Infinity

David Yurth

The quest of modern physics has been to develop a model which correctly describes the role and dynamics of the interactions by which Nature works. A robust model must not only accommodate phenomena which are known to occur, but must also accommodate all rigorously documented phenomena, predict phenomena which are as-yet undiscovered, and allow for the inclusion of all rigorously observed, impeccably documented, carefully reported data derived from all sources.

The current model fails to rise to this standard. It is based on a number of fundamentally flawed, incomplete and arbitrarily imposed assumptions. In the 35 years since the Standard Model was improved by the Copenhagen School, the reductionist methodology which typifies scientific research has run up hard against the most daunting of all Nature's mysteries. Experimental results provided by the most powerful microscopes, largest telescopes, fastest linear accelerators and other advanced devices, demonstrate that there is an underlying order in the cosmos which has not yet been understood.

The shortcomings of the Standard Model are ameliorated by the application of the rules of Self-Organizing Criticality in complex, open systems. as integrated with the dynamics described as Y-Bias and Angularity. The resulting simple, elegant model of scalar interactions gives us a new view of mass, magnetism, and gravitational field effects.... and new possibilities!

Water Dissociation with Zero-Point Energy

Moray King

There are numerous claims by inventors that "water fuel" projects can generate excessive power well beyond the input power taken from the battery used to drive the system. Standard scientific opinion is that water can't be a fuel because it takes more energy to dissociate the water into hydrogen and oxygen than can be returned when the hydrogen is burned. Excess energy production may be a result of a pulsing electrolyzer producing charged water gas clusters, which activate and coherently capture zero-point energy into the cluster, thus raising the water's energy state.

The best demonstration of proof would be a self-running system where a battery is used to kick-start the apparatus, and then removed. If the system continues to run itself indefinitely on just water (preferably re-circulated water from the exhaust), proof of a new energy source would be dramatically demonstrated.

In just a few years, companies, visionary entrepreneurs and wealthy individuals entered the field of new energy technology. New energy experts estimate that currently around 40 professional project are running. These private projects are usually well funded and consists of technical teams that work on the research and development of specific new energy technologies in a corporate or professional environment. Because of this setting the projects are usually highly confidential, so not much is known about them in public.

The closed loop demonstration system can be made with mostly off the shelf components. A custom electrolyzer produces water gas and H-O mixture, which fuels a small motor. The motor drives an electrical generator whose output is rectified onto a storage capacitor. Power from the storage capacitor is directed to a switching regulator and a DC port. The switching regulator maintains a constant voltage on its internal capacitor, which provides a constant DC power supply for the solid state, pulse driver circuit. An auxiliary frequency shifter, control circuit is used to alter the pulse driver frequency to maximize water gas production.

Once running, the battery is removed. If the device really produces excess energy, then such a closed loop system would run indefinitely and may yield output energy that could be tapped from the DC port to power a small load.

Emerging European ZPE Technologies

**Insight Into Professional New Energy
Projects & Update On The ZPE Sensor**

Thorsten Ludwig

This overview will shed some light on various projects as to their type, development timelines, viability, their sponsors, and financing. It will reveal where this controversial research takes place, as well as the creation and composition of the technical teams.

Ludwig's ZPE sensor project (introduced last year) will be updated. It integrates the latest nano technologies into an affordable sensor to measure the quantum mechanical radiation fields called zero point energy... an abundant energy source to power machinery.

Home of the Best Kept Secrets of Science

Introducing

FLUID RX

The "One Drop Oil Test!"

Fluid Rx Instant Lubricant Test is a patented fluid test that measures the amount of sludge in a lubricant or oil. **Fluid Rx** testing provides simple and accurate verification that a fluid should be changed! Simply place a drop of the sample fluid or lubricant on the **Fluid Rx** tester (filter paper) then compare the findings to the **Fluid Rx** ISO analysis chart. In seconds **Fluid Rx** provides an analysis of the sample.

The kit can test six types of fluid/lubricants:

- Crankcase Motor Oil
- Brake Fluid
- Power Steering Fluid
- Transfer Case Gear Oil
- Transmission Fluid
- Differential Gear Oil

As fluid test specimens percolate through the unique Fluid Rx filter paper, bands and/or zones of different colors, densities, even unwanted wear metals and debris form a chromatogram. Changes in the appearance of the zones or bands are a clear indication that something in the lubricant has changed. A closer look at the zones, their unique formation, and the debris fields contained therein reveal high particle counts that can be correlated to ISO Code. Fluid Rx chromatograms provide a measure of sludge and dispersant properties that is correlated to laboratory analysis: **New/Good, Change, Bad**. Simply compare the Fluid Rx chromatogram to the Fluid Rx ISO analysis chart.

Each kit contains instructions, ISO comparison charts for the six fluids, and materials for six tests of each fluid. Additional sheets of Motor Oil Test Pads are available. Each sheet is good for 6 tests.

990010 - Fluid RX Personal Test Kit ... 9.95

990011 - Add'l Motor Oil Test Sheet 3.00

World's Easiest
Engine Saver:

1. Insert magnet into filter.
2. Push it down.
3. Install filter as directed.

MagnaGuard

Inexpensive
Engine
Protection
System

Even under the best conditions, with meticulous maintenance, your engine sheds tiny particles of metal grit in the oil. Since oil filters are designed to pass oil freely to provide adequate lubrication for your engine, only particles of grit 20- 30 microns or larger are, will trapped in the filter's porous element. **MagnaGuard** added to these same filters controls particle contamination down to 0.5-microns... about 40 times more grit than your filter alone!

A clean engine runs better, lasts longer, gets higher mileage, and reduces pollution. Independent lab tests document an 18% reduction in toxic tailpipe emissions with **MagnaGuard**. Install **MagnaGuard** today and start reducing overall maintenance and operating costs.

990003 - Magna-Guard 7.99

The Original
All-In-One
Formula

LIQUID RING

Synthetic Lubricant
Concentrate

Liquid Ring brings back power and performance to a worn, weak engine while reducing emissions at the source. Its innovative Lube-Logic multi-action formula senses and adapts to your engine's performance needs for high or low mileage engines. First, the formula builds up compression and stops smoking that occurs due to worn engine parts such as pistons, piston rings, and cylinder walls. Then, its protective coating becomes bonded and does not drain back into the oil pan when the engine is off. (**Liquid Ring** does not contain Dupont teflon.)

Easy to apply, **Liquid Ring** can be used as strictly an occasional engine overhaul treatment or for smog reduction. When used as a smog reducer (the preferred method), one will constantly reap the overhaul treatment benefits. As long as **Liquid Ring** is present in the engine, the catalyst helps reduce smog.

990002 - Liquid Ring (1qt) 49.95

T.T.-L

Better than
VIAGRA!!!

Advanced Soviet Bio-technology...

T.T.-L is an all natural, non-hormonal preparation of *Tribulus Terrestris L*—a natural steroid. Active ingredients are steroidal saponins of the furostanol type, isolated from the puncture weed. Used around the world for years as folk remedies for many ailments and conditions in addition to those related to sexual functions, body builders use it on a regular basis to increase stamina!

Supplement Benefits:

- Arthritis Pain Relief
- Increased Lean Muscle Mass
- Impotence - Infertility
- Hair/Nail Repair & Growth
- Regulation of Blood Pressure
- Cholesterol Level Management
- Immune & Respiratory System Support
- Rejuvenation & Increased Stamina

The strongest formulation on the market, each Capsule contains 40% Saponins. **Guaranteed for relief of arthritis pain within 21 days** when taken as instructed.

900001- TTL Ext (btl of 90) 39.95

Start Banishing Disease Today ...

with unlimited amounts of colloidal silver... it's safe and heals with the power of nature!

Pocket Sized Colloidal Silver Generator

Note: These units are for personal experimental use only.

Silver, commonly valued for its monetary value, and referred to poor man's gold, has been used since ancient times as an antiseptic and cure for many diseases. Then, with emergence of the pharmaceutical companies it disappeared...

Colloidal Silver, a powerful natural antibacterial can be applied externally, and used throughout the house. It costs only pennies per cup to produce with the pocket generator, which produces colloidal silver at 3-5 ppm with particle size of 0.005-0.015 microns. This generator provides an adequate amount for personal use for up to a year! Add'l info provided. Battery not included.

990002- Pocket Silver Generator \$9.95

Energy from Air The Maisotsenko Cycle

Valeriy Maisotsenko

Today's combined-cycle power plants are attaining efficiencies near 50%. But a new technology promises levels of up to 60%. The Maisotsenko cycle—which seems to defy the second law of thermodynamics—uses souped-up cooling and captures significant amounts of energy from the atmosphere. The result is higher efficiency and lower emissions.

A high degree of thermodynamic perfection of the M-Cycle allows atmospheric air to be cooled (without humidification) to the dew point temperature, and it increases psychrometric temperature difference and, consequently, energy resource of the atmospheric air. The *Coolerado Cooler* is now available commercial applications which offers up to an 80% reduction of power for air conditioning of homes, commercial, and industrial buildings. It falls into a new category of an “ultra” class cooler because of its extreme energy efficiency and ability to cool air below the wet bulb temperatures without a compressor and or using CFCs!

This is only the first of many practical applications that the M-Cycle can be applied towards in reducing energy consumption by increasing thermal transfer efficiencies. The proven M-Cycle relies on atmospheric air as its renewable clean energy source. The M-Cycle's unique properties makes it the ideal candidate for advanced energy efficient vehicles and fuel cells, power plant systems and micro scale power plants and other energy technologies.

The Moe-Joe Cell Spherical Prototype of the Joe Cell

Moshe Daniel, ND

Join Moshe Daniel, ND, designer and inventor of the Moe-Joe cell, as he discusses the Joe cell technology, its brief history and its various applications in empowering combustion engines. Discover how the uniquely designed spherical cell he has developed has already proven itself to be superior in many ways in comparison to the standard cylindrical Joe cell and how it represents the simple, logical and intuitive evolution of the Joe cell technology.

Also shared in this talk will be a philosophical examination of the creation of scalar waves, radiant energy, and other forms of interacting fields of energy that the Moe-Joe cell generates, and the applications for healing, prayer and intention magnification, and the

evolution towards a more unified, balanced consciousness that the spherical cell offers.

He will also present the integration of a “special” power supply that is being developed to further improve the process of charging the water used to empower the combustion engine and for healing, and its other amazing implications and applications.

A live demonstration of the Moe-Joe cell integrated with an engine (a practical application to resolving today's energy crisis) will be shown during this presentation.

Fresnel lens melts brick.

Developments in Solar Energy

Sir Charles Shults

A popular concept is that of using the Sun for power. Many simple systems can be solar powered, and some can be made from scrap or surplus materials. Of course, it all depends on when and where you need the energy.

Solar cell panels (photovoltaic panels) convert sunlight directly into electrical power. This is very handy because electricity can easily be converted into many forms. Electrical power is arguably the most flexible power source since it can operate virtually any type of device, from radio equipment to water pumps, battery chargers to air conditioning. The problem with solar cells is that their efficiency is not very good and they have a limited life span. If you need power at night, you must rely on charging batteries from the cells or some other type of storage technology.

Some applications for solar power demand raw heat in quantity. The trick

is to collect and concentrate the power so that it reaches useful energy levels. Sunlight can easily make any metal surface too hot to touch, but it is one thing to feel how hot something can get, and another thing entirely to apply that power in a useful manner.

New technologies and applications of revised, mature technologies will lead to production of clean solar energy on a massive scale. Applications will range from use in the home to space travel. This is a look at some of the emerging solar technologies including photovoltaic as well as thermal and how they will dramatically affect our energy future.

CONFERENCE DVD SETS AVAILABLE!!!

ExtraOrdinary Technology

600800 - 2007 Complete Conference Set (18 DVDs) 299.95

Ralph Ring • Jim Murray • Kim Zorzi • Konstantin Meyl • Alan Greenberg • Tracy Tucker • Joe Galloway • Thorsten Ludwig • Moray King • Dan Davidson • John-Arthur Taylor • Jan Marwan • Vernon Roth • Mike Windell • Harvey Fiala • Steven Greer • Vern Warwick • David Yurth

VHS Tapes are No Longer Available !

(1987-2002)

The Global Sciences organization was founded in 1983 by Dean Stonier with the intent to promote the understanding and integration of body, mind and spirit as well as the mysteries which surround us in daily life such as UFO's, crop circles, spiritual growth and ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies. Eventually this resulted in two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of the alternative world for nearly two decades!

SuperLight and Other Forms of Magnetic Energy

John V. Milewski, PhD

SuperLight is magnetic light. In other words, it is *magneto*-electric radiation while regular light is electric light or *electromagnetic* radiation. There is parity or symmetry the Universe, everything has an equal and opposite mirror-image counterpart, the Ying and the Yang, right and left, matter and anti matter, the electron and the positron. Why not light?

SuperLight is the unseen force in nature that has been ignored by science but real to the mystics and metaphysicians for thousands of years. SuperLight was identified scientifically over 100 years ago when James Clerk Maxwell solved his famous wave equation. When using positive numbers in Maxwell's Equations this explains radio waves and also all forms of electro-magnetic radiation such as light, radio, TV, microwaves, x-rays, etc. What his equation also explains is SuperLight... the solution that comes from the use of negative numbers (ie the imaginary part prominent in electromagnetic analysis)!

Applications for superlight include magnetically activated water, accelerated plant growth, growing gold, and a likely source of unlimited, nonpolluting energy!

Nano Materials, Fab Processes, and "Greentech"

Charles Ostman

Nanotechnology is quickly maturing past the realms of speculative research, and well into the arena of markets and applications. Moreover, it is particularly relevant to recognize that the epicenter of value in applied nanotechnology is in the integration of systems, and systems of systems, of interrelated technology platforms, infrastructure, and market domains. In parallel with this emergent phenomena is a marked increase in the perceived viability of, and accelerated investment in "green businesses".

In this context, the intersection of nanomaterials and nanotechnology enabled manufacturing platforms with emergent "greentech" related applications include:

- 1) *Just as Needed* manufacturing practices
- 2) Renewable/Alternative energy platform
- 3) Recapture of waste energy, materials

Common Sense Its Development and Disorders

Roulette Wm. Smith, PhD

Some notion of the term "common sense" is found in virtually all languages and cultures, as are terms for disorders in common sense. Based on ancient languages and scripts, *common sense* also can be traced back more than 3,000 years. A remarkable discovery was made in 2007 after a living experience in a household with two people having common sense disorders.

Despite the apparent universality of common sense, there are no clinical or other discussions of aberrations in common sense in any professional discipline or diagnostic manual – regardless of language and culture! Moreover, disorders in common sense often are associated with serious physical and

Molecular Electronics Uses Self-Assembly!

- 4) Less Toxic Alternatives to current materials and processes
- 5) Ubiquitous computing integration including sensors, "smart dust", and reconfigurable computing platforms enabling the monitoring and management of complex resource, power and traffic grids.

The promise of nanotechnology is not just to enable new types of processes and products at lower cost, but to improve the nature of how these products are made and applied, with the end result being less toxic, more sustainable, efficient, and "environmentally friendly" industrial and consumer practices.

This presentation will indicate specific areas of technology, infrastructure development, and investment sectors specifically targeted at the intersection of applied nanotechnology, and economically viable "green" businesses.

psychological symptoms – some of which may be disabling, harmful to self or others, and cause general chaos. Many of these symptoms are treated with selective serotonin reuptake inhibitors (SSRIs) and other pharmaceutical preparations.

A five year goal is to systematically explore interdisciplinary aspects of common sense and its aberrations. A long-term goal is to examine wellness aspects of common sense while providing holistic remedies for disorders in common sense. Furthermore, because wars and trauma may contribute to divergences in common sense, a broader goal is to view common sense as a concrete marker of peace.

ORDERING INSTRUCTIONS

Please include your phone number!

This helps us to contact you in the event of a discrepancy or problem. Your privacy and confidentiality will be respected otherwise. It has always been, and always will be, our policy to NOT sell our membership and customer mailing lists.

Send special questions and comments on a separate piece of paper, so that the processing of your order is not slowed down. Although we may not be able to respond to your comments directly, we do welcome them and read every one of them — and often, changes and new books are the result of an inquiry. Technical questions are usually better handled if directed to our magazine, **ExtraOrdinary Technology**, as a “Letter to the Editor.”

We attempt to keep all books in stock. However, there are occasions when demand outpaces supply. Accounts are credited at the time an order is placed. If a book is out of stock, it will be backordered and sent to you as soon as it arrives. If a book has been discontinued, a refund will be sent immediately.

We try to keep our *Shipping and Handling* charges as low as possible. The US Postal Service's constant and ever accelerating rate changes have destabilized the shipping market. Currently, in our most recent shipping schedule, we have decided to ship *ALL* books by bookrate or surface, unless specifically requested otherwise. We are looking into UPS as an option... but they do not deliver to PO Box addresses.

We have a variety of payment options. In addition to accepting the major credit cards shown, we also accept checks, postal money orders, money orders and FRNs (ie. cash in US dollars).

Dissatisfied? If there is a problem with your order, please notify **TeslaTech, Inc** at **(520) 463-1994** immediately.

Thank you for your support!

2008 ExtraOrdinary Technology Conference

Albuquerque, NM • July 31-Aug 3, 2008

Conference Early PreRegistration Form

Information so HOT... it NEEDS to be Suppressed!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have **WORKING HARDWARE!** We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!*

Suggested Speaker Topics/Categories :

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Conference Notes:

• **Video Recordings.** Professional quality video DVDs will be available during and after the conference. Private taping is not allowed. Conference fees do not include DVDs.

• **Family Discounts.** Spouse rates available to immediate family accompanied by members.

• **Individual Sessions.** Individual session rates available at the door on a space available basis only. Individual sessions will total at least \$350.00 if each session was purchased separately.

• Hotel Arrangements...
