2010 ExtraOrdinary Technology Conference

Marriott Pyramid North • Albuquerque, NM • July 29 - August 1, 2010

CONFERENCE PROGRAM OVERVIEW

DVDs WILL BE AVAILABLE AFTER CONFERENCE!

TeslaTech, Inc reserves the right to make changes to this schedule without notice.

Thursday • July 29

Session 1 (Evening) • An ExtraOrdinary Revelation

5:00PM: **John Searl** - SEG Replication Past Present & Future

7:00PM: **Conference Evening Social**

Friday • July 30

Session 2 (Morning) • ExtraOrdinary Health Issues

8:00AM: **Dr. Robyn Benson** - Magnetic Resonance Stimulation

9:30AM: **Steve Haltiwanger MD**- LifeWave's Blood Glutathione Patch

11:00AM: **Warren Starnes** - Introducing the Photon-Genius

Session 3 (Afternoon) • Hydrogen Technology

1:00PM: **Moray King** - Water Electrolyzers and Zero-Point Energy

2:30PM: **Richard Motzer** - Over Unity via the Starship Coil

4:00PM: **Paul Pantone** - Its Time Has Come... The GEET Solution!

Session 4 (Evening)

6:00PM: **Conference Evening Social**

7:00PM: **David Schmidt** - From Invention to Market!

Saturday • July 31

Session 5 (Morning) • Vortex Based Technology

8:00AM: **Greg Volk** - Toroids, Vortices, Knots, Topology and Quanta

9:30AM: **Jeff Cook** - On Gamma Interferometric Spin and Gravitational Potentials

11:00AM: **Alex Petty** - Aetheric Drive Motor

Session 6 (Afternoon) • Rodin Torus Technology

1:00PM: **Jack Scholze** - "Ace-O-Clubs" Motor

2:30PM: **Randy Powell** - An ExtraOrdinary Application of Vortex Based Mathematics

4:00PM: **Jamie Buturff** - Health & Biological Effects of the Rodin Coil

Session 7 (Evening)

6:00PM: **Conference Evening Social**

7:00PM: **Marko Rodin** - The Rodin Solution Overview

Sunday • August 1

Session 8 (Morning) • ExtraOrdinary Challenges

8:00AM: **Joe Blankenship** - Purple Plates and Other ExtraOrdinary Technology

9:30AM: **Steve Bridgers** - Y-Pod Morphing Architecture

11:00AM: **Dan Davidson** - Aetheric Science - The Next Frontier

Pre Conference Event

Thursday Afternoon

July 29 -- 1PM

New Power Paradigms

Vernon Roth

Post Conference Event

Sunday Afternoon

August 1 -- 1PM

GEET Seminar

Paul Pantone

Thursday • July 29 • Session 1 (Eve) • An ExtraOrdinary Revelation

The Story Behind John Searl's ExtraOrdinary Flying Machine!

SEG Replication ...Past, Present & Future

John Roy Robert Searl

Born in England on May 2, 1932, John Searl experienced recurring childhood dreams that led him to design a revolutionary electrical generator fueled only by rotating magnets, and large discs that emulated the flight characteristics displayed by many UFOs.

It is said that the first Sunday of every month between 1968 and 1972, Searl demonstrated his generators and flying discs to the general public. Television cameramen and news reporters were supposedly present for the events, and Searl claims he also demonstrated his flying disc to US military personnel. Not surprisingly, opposition to a fuel-less device was fierce.

Multi-billion dollar industries, governments and mainstream scientists were quick to label John Searl a crackpot ... He was subjected to ridicule and torment, fell victim to arson and theft, was imprisoned and left destitute. His research and devices were destroyed. But, John Searl is still alive today, and continues his mission to prove himself by rebuilding his amazing generator.

Spend an evening with John Searl and learn the science and technology of the Searl Effect Generator (SEG). This is a unique opportunity to get real current information on today's effort to reconstruct the SEG from the inventor, John Searl himself!

Conference Lodging Facilities

Limited space... Please register by June 30!

Marriott
ALBUQUERQUE
PYRAMID NORTH

Hotel Reservations:

Conference Evening Social

Meet the Speakers
... and New Friends!

Thu/Fri/Sat ~6PM

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. It's a great opportunity to make new friends that share your interests. We even provide some refreshments!

Hotel Amenities

**Special hotel amenities for
conference attendees include:**

- Free Breakfast
- Free high speed internet (both cable or wireless available)
- Free local calls
- Business Center open 24/7
- Clean, fresh, comfortable rooms standard with a coffee maker, iron and ironing board.

For taxicab service in Albuquerque,
Call **Albuquerque Cab Company** at

(505) 883-4888

PRE CONFERENCE ACTIVITY

Thursday Afternoon

Thu Jul 29 • 1PM-3PM

Development of New Power Paradigms

Vernon Roth

The field of power generation is taking off in many directions. But why now? Free energy has been available for the last hundred years. Water based energy has been seen as a viable power supplement in the mainstream. Un-counted magnetic enthusiasts are driven to build motor after motor. The same can be said of Rodin coils. Black hole technology is in development. A new paradigm allows the creation of these technologies. However, that paradigm cannot be fear, but must be one of creation.

Join us as we explore the intricacies of HHO production. Hard lessons will be presented and their secrets shared. We will take a guided tour of our field installations of Hydrogen devices and show the willingness of industry to accept this fifty year old (or more), technology. As a side quest, we will show the application of magnetic current and Rodin coils to Hydrogen on demand.

POST CONFERENCE ACTIVITY

Sunday Afternoon

Sun Aug 1 • 1PM-3PM

GEET Seminar

Paul Pantone

The first working prototype was developed long before the technical analysis was attempted. Plasma research is a fairly new field of acceptable science. The technology used in the GEET Fuel Processor is a combination of the most basic scientific principles, most of which falls within the normal rules and of thermodynamics. But some of the 70 simultaneous phenomenon are not found in those books, since it is the combination of events, which is the body of this discovery. Put quite simply, the exhaust heat is transferred to the incoming fuel vapor, which must be maintained in a vacuum, and the overall configuration provides a molecular breakdown within the vacuum of all of the heavier elements. Therefore, intensifying the vacuum, the speed of molecular breakdown or reaction is magnified, and less heat is required.

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines running on GEET technology have consistently shown tremendous reductions in emissions. Early efforts for this groundbreaking experimental technology centered on small engines. Now, plans are even available for automobiles.

Conference AfterHours ...

Friday Jul 30 - 7PM From Invention to the Market!

David Schmidt

A MUST SEE presentation for those of us who dream about starting and running our own company!!!

This talk is geared to helping inventors get their products to the market place. David Schmidt will discuss the obstacles that inventors face and he will provide information and solutions as regards to patent application, incorporation, setting up a company (legal, accounting, operations), the need to obtain solid market research about target industries, development of a business plan, finding and creating a team of professionals, funding, product development, importance of well designed prototypes, and creating professional marketing materials.

David Schmidt is the CEO of LifeWave, a global company, with distribution in over 80 countries, and sales in excess of \$100 Million. He has over two decades of experience as both an accomplished inventor and businessman. He recognizes that most inventors do not know how to navigate through the pitfalls and paranoia that prevent inventors from achieving financial success. However, his experience in successfully commercializing LifeWave Technology (the activation of biochemical processes using specific wavelengths of light) is helpful to other inventors encountering similar obstacles.

Saturday Jul 31 - 7PM

Overview of the Rodin Solution

Marko Rodin

I have discovered the source of the non-decaying spin of the electron. - Mark Rodin

Prime Number Symmetry Generation in Rodin Coil Design

Marko Rodin was originally selected in 1988 by Defense Science Magazine to present his findings at Air Space America under the scientific topic of Space Power Propulsion Systems on behalf of the United States government and will be sharing the most recently made advances in Rodin Coil model design and Vortex Based Mathematics technologically for antennae, portable power generation, computer artificial intelligence, 3D speakers, electric cars, and an in depth explanation into how to end all diseases and produce unlimited food crops by harnessing the heretofore undetectable Morphogenetic Field Bio-Aetheric Template contained within DNA and is responsible for all gene expression.

There will also be a live demonstration of the newly released Rodin Coil four conductor and six conductor model design.

Introducing the Photon-Genius!

Warren Starnes

Ed Skilling was commissioned by California Cancer Doctors in 1959 to apply his electronics genius and utilize “space-aged” electronics to improve the original Rife Instrument technologies. His very first electro-medicine instrument got better results than any technology in history and he has made the most “result-oriented” advancements to date. The Skilling Institute’s Photon-Genie, recommended by many doctors and healthcare practitioners, provides more “noticeable” results with serious conditions than any other technology available today.

The very latest technology released in 2010 is the Photon-Genius. The Photon-Genius utilizes sophisticated, proprietary Skilling circuitry to generate the dynamics of photon-genetic energy, life force energy transmission, harmonic frequency tube technology, harmonic infrared energy transmission to communicate with all the cells of the body to balance and enliven all systems and organs of the body. The Photon-Genius transmits, imprints, and reminds the human body at the cellular level of the essential creative process of enlivening energy that results in natural and empowered regenerative processes throughout the body. This achieves ever-accelerating levels of health, wellness and more efficient, natural regeneration and rejuvenation to make the body the best it can be!

Magnetic Resonance Stimulation (MRS)

Robyn Benson DOM

In 1886 Nikola Tesla warned humanity that the invention and implementation of ac electricity would be a blessing, curse and challenge. He understood exposing living organisms to artificially generated frequencies such as ac, radio, and other broadcast frequencies has a negative impact on living cells. While we have reaped many of the benefits of ac electricity, on the downside we have seen the proliferation of thousands of diseases.

In addition to 30,000 known diseases, the World Health Organization has now coined the term Electro-Hyper Sensitivity (EHS), which describes the disease pattern caused by electromagnetic field radiation, electromagnetic signals (radio, TV etc) and other artificially generated frequencies. Some of the most common symptoms are: head-

aches, fatigue, dizziness, skin rashes, poor memory and digestion, MS, suicidal tendencies and depression, sleeplessness...just to name a few.

Dr. Benson will speak about the revolutionary benefits of Magnetic Resonance Stimulation (MRS) and how it helps millions around the world cope and recover from EHS. MRS is a clinically documented and scientifically proven form of low-intensity, pulsed electromagnetic field application. It is a safe method to increase oxygenation, energy, detoxification, nutritional absorption, pain reduction and it helps reverse all diseases and is an antidote to electromagnetic pollution.

LifeWave's Blood Glutathione Patch

Extraordinary New Technology Elevates Blood Glutathione Levels Through A Unique Patch

Steve Haltiwanger MD

Blood Glutathione levels are one of the most important indicators of our overall health. As the master antioxidant in the body Glutathione, has a range of diverse metabolic functions including acting as a free radical scavenger, “recharging” depleted antioxidants back into their active state, maintaining the immune system, and detoxifying chemicals, drugs, and heavy metals through the liver and kidneys. The military has ongoing research programs devoted to methods of increasing glutathione levels in troops because glutathione can help protect against both chemical and biological warfare agents.

Prior studies funded by the US military have identified the need for a technology that is capable of elevating blood Glutathione levels on a consistent basis,

with technology practical to deploy to troops on active duty. Studies have shown that depleted Glutathione levels lead to a decrease in an individual’s physical performance, hearing loss when exposed to high ambient sound, premature muscular fatigue, and decrease in heavy metal elimination.

This talk will disclose a method for rapidly elevating Blood Glutathione levels through a novel electronic signal transduction mechanism. LifeWave has pioneered the development of nontransdermal patches that use human infrared body heat as the power source. When LifeWave patches are placed on the surface of the skin they establish communication links with the human body providing the ability to safely trigger biological functions such as elevating blood Glutathione levels.

Water Electrolyzers & Zero-Point Energy

Moray King

Water electrolyzer projects are very popular on the web where most investigators believe they produce a mixture of hydrogen and oxygen (aka HHO, hydroxy, or Brown's gas). The burning gas exhibits energetic anomalies like a cool flame, yet it can vaporize tungsten. There are claims of element transmutation and radioactivity remediation using the gas. Burning hydrogen can't account for the anomalies. It may be that hydrogen is not the energetic component of the gas, but rather charged water gas clusters which activate and coherently trap zero-point energy. The anomalies are similar to those manifested by plasma charge clusters, a form of microscopic ball lightning discovered by Ken Shoulders.

Recently, Ohmasa discovered that mechanically vibrating plates greatly improves gas production. Some researchers recycle the exhaust water back to the electrolyzer. Energetic water clusters present after discharge in the engine could continuously augment the water's energy content by recycling them back to the electrolyzer. The energetic clusters appear similar to Rydberg matter. Recent announcements include the close-loop, self-running system by Steven Eaton of HybridTech corporation. He claimed to have run a 3.55 KW generator on 100% water that completely powered his electrolyzer at 12.5V, 15A, producing 5 liters of gas per minute with excess electricity available to power some light bulbs.

Its Time Has Come... The GEET Solution

Paul Pantone

Try to imagine owning the ultimate home production power plant; it heats your water, generates electricity, takes care of heating and air conditioning, by utilizing the waste heat from refrigeration and applying it to storage/hot water, while the generator produces all the electricity you want. This is all possible with the GEET Fuel Processor.

In simple definition, it could be called a new type of carburetor with a miniature refinery built in. With it, there is no need for catalytic converters, smog pumps and many other costly items on cars, as the GEET Fuel Processor is not just a fuel delivery system it is also a pollution elimination unit! Your mileage will be increased if you are consuming ALL available energy, from whatever fuel you may be using.

Paul Pantone, the inventor, was held illegally in Utah's 'Guantanamo of the West' because he refuses to hand over his patents. Despite this flagrant attempt at suppression and intellectual theft, Paul is carrying on with his work.

In addition to covering the basics of the technology, Paul will unveil some of the advances he has made in the past year. Finally, he will provide us with details of the latest initiatives taken to promote the international GEET network... and a new research center!

OverUnity via the Starship Coil

Richard F. Motzer

need was to have a low voltage/high current source to operate two of HHO cells that was developed, from a standard automotive electrical 12-volt system. In his attempts over the last one and half years, he was able to meet his goal but also noticed something very unusual.

Think of the circuit as one wire across the source which is supplying a current of 5 amps. Yet inside this wire the current shows to be 15 amps plus some powerful - destructive properties. Others have duplicated this circuit with success. Richard then realized that this circuit can be applied in different areas of the alternative energy field.

Since then he has developed a low cost way to fast wind a "Rodin" coil, it's called the *Starship Coil*. It takes 1/10 the time to wind and is much stronger than the "Classic Rodin Coil"

About 2008, Richard started his research in the HHO field using David Lawton's make over of Stanley Meyer's circuits. He has since developed his own circuit **which shows over unity by as much as 1700%**. The problem has always been how to extract the extra power developed. Richard has had some recent success in doing that.

This electronic circuit follows loosely the design of David Lawton's circuit trying to duplicate the Stan Meyer's original HHO cell operation. Richard's

Auto Engine GEET Plans

by Paul Pantone

This retrofitted Suburban has been driven **THREE** times across the US

WARNING: ALL GEET Plans are to be considered experimental! No guarantees are made as to their accuracy or feasibility!

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines using GEET technology have consistently shown tremendous reductions in emissions. Early efforts centered on small engines. Now, plans are available for automobiles. Purchase your set of *GEET Fuel Processor* plans and build a GEET for your automobile engine. Replacing a catalytic converter or some expensive air pollution control device? *Now* is an excellent time to consider installing a GEET device. Plans include a license to build and install one device (GEET is a patent-protected technology). These Official GEET Fuel Processor Plans are for **personal use only**!

750002- GEET Single Auto Plan .. 250.00

Energy Machine of T. Henry Moray

Zero-Point Energy &
Pulsed Plasma Physics

by **Moray B. King**

In the 1920s Moray invented a "free energy" device that produced 50 kW of electricity. Unexplainable by orthodox science, the electricity exhibited a strange "cold current" characteristic where thin wires could conduct appreciable power without heating. Moray suffered ruthless suppression. In 1939, the device was destroyed. Today, modern physics finally recognizes the vacuum contains tremendous energy called *zero-point energy*. Other inventors have discovered it is activated by pulsing plasma, and created novel energy devices, but they too were suppressed. The common pattern of these technologies clarified the fundamental operating principle. Free energy that works! Truly an inspiration for engineers and inventors, this is a **MUST** have book (200pp)

450003-Energy Mach of Moray 14.95

Electric Motor Secrets

by Peter Lindemann

Laying dormant within the modern electric motor is a deep, dark secret. For the last 176 years, that secret has held the electric motor to its present level of performance. But in 1975, a quantum leap in electric motor design was made by an American inventor named Bob Teal. Teal's Magnipulsion Engine produced COPs between 8 and 10. Using lab demonstrations, patents, diagrams, and private documents, Dr. Peter Lindemann takes you on an extraordinary trip through the history of electric motors, resurrecting the secret of Magnipulsion, and revealing the future of efficient electric motor design. **MUST HAVE DVD!** (2hr 26 minutes)

330015 -Electric Motor Secrets 29.95

Basic Electricity

US Bureau of Naval
Personnel

Originally a training course, its the best non-technical coverage on electricity. Topics include batteries, circuits, conductors, AC and DC, inductance and capacitance, generators, motors, transformers, amplifiers, etc. Many questions with answers.

390001- Basic Electricity 15.95

Basic Electronics

US Bureau of Naval
Personnel

This clear, well-illustrated introduction to electronic equipment covers the safe use of electronic

devices and basic test equipment, plus numerous essential topics: electron tubes, semiconductors, electronic power supplies, tuned circuits, an introduction to amplifiers, receivers, ranging and navigation systems, an introduction to computers, antennas, AM/FM, and much more. 560 illustrations.

390002- Basic Electronics 18.95

Tools and Their Uses

US Bureau of Naval
Personnel

Teaches names, general uses, and correct operation of all basic hand and power tools, fasteners, and measuring devices you are likely to need. Also, grinding, metal cutting, soldering and more.

390003-Tools and Their Uses...10.95

Toroids, Vortices, Knots, Topology and Quanta

Greg Volk

What causes matter to bind together into the clusters we call particles? At every location within every stable particle there must exist a balance between the natural repulsion of like elements and the attraction due to parallel motions. For continuums of matter, every moving element within a structure must be immediately replaced by another, creating a circuit. Now if circuits form the basis for the structure of matter itself, then analysis of the most fundamental form of circuit, the toroid, is a worthy subject. I explore many interesting features of toroidal coordinates, the relationship toroids have with vortices, and the intimate connection between toroid knots and topology.

Real stable 3D particles must contain circulations both around the toroid of radius R and the cross-section of radius r , so that for every m times an element circulates around the toroid, it circulates n times around the torus. This relationship changes instantly when the relative phases exceed 360° . The quantum jump observed at this point equates to a "strobe effect" seen in a roulette wheel, wagon wheels in old westerns, and Lissajous patterns. Backed by a physical demonstration, I argue these quantum jumps correspond with the absorption and emission of photons. Finally I examine the increasingly popular Rodin coil.

Aetheric Drive System

Alexander S. Petty

Since the days of Mesopotamia, man has engineered systems harnessing available environmental energy to amplify productivity. The first invention of this kind was the waterwheel, a device that captures gravitational energy transferred by a free-flowing or falling body of water into rotation which in turn can be converted to mechanical or electrical power.

Later, windmills were invented and in a similar manner, converts atmospheric thermal energy (wind) into rotation which again, can be used to produce mechanical power. It is only now that we are beginning to more fully utilize the power available in wind energy.

Today, we have begun to harness an even subtler and far more pervasive medium: *Aether*. This has become possible with the Vortex Coil, which can be thought of as a 'windmill' interacting with the photons comprising

magnetic fields. The Vortex Coil is a specialized square wound coil that, by virtue of its geometry in relation to the characteristics of charge flow, produces a magnetic flux vortex.

Just as with a flowing body of water or as with the wind, the cyclonic motion of a spiraling magnetic field can also be harnessed when one employs a specially arranged array of permanent magnets. The resulting rotation can be readily converted to mechanical or electrical power.

A coil of 30-gauge zinc-plated iron wire is wound around a $\frac{3}{8}$ -in diameter brass core to give the coil a $1\frac{1}{2}$ -in outer diameter. Around said ferromagnetic coil, another coil of 16-gauge copper magnetic wrapping wire is wound to give the coil a $5\frac{1}{4}$ -in outer diameter. The ratio for the ferromagnetic to electric turns is 5 to 1. The coil is secured on a drive bearing and maintains current through stationary carbon brushes. A ferromagnetic toroidal ring with a 100mm outer diameter and a 96mm inner diameter is centered and secured slightly above the coil. A cylindrical neo magnet with a $\frac{3}{4}$ -in diameter is centered above the ring and coil with its north-seeking pole facing the coil.

Gamma Interferometric Spin and Gravitational Potentials

Jeff Cook

By pulsing this unique coil configuration in a rotational apparatus, Jeff can examine and measure effects of oblique torque on magnetic fields in relation with the earth's gravitational field in order to draw practical comparison with solar and galactic phenomenon. An analogy is drawn between interferometry at sub-gamma frequencies to those at the center of galaxies.

Oblique spin induced on rare earth magnets is directly proportional to the frequency of a square wave pulse. The torque of the spin in proportion to the magnetic field is examined, and an analysis is applied to apparent rotation counter to the motion of the spin. Measurements are taken to draw analytical comparison to gravitational potentials. Several theories are addressed and hypotheses on alternative probable mechanics and power are deliberated.

Kick off your carbon shoes !

GEET
Global
Environmental
Energy
Technology

- Compatible with any engine and unlimited variety of fuels
- Expands fuel for multiplied power and runtime
- Eliminates Pollution up to 100%

New Discoveries !

GEET displays hundreds of scientific anomalies, including several UFEs (unidentified energy fields)

New Schools !

The first European GEET International Institute has scheduled classes for the public, starting in the month of April and continuing each month thereafter.

In Australia, Panacea-Bocaf (a non-prof org) is preparing for their opening of GEET II down under.

Classes in the U.S. continue as usual, and all information can be found at GEETinternational.com

New Laboratory !

The majority of tuition funds from recent GEET classes, taught by Paul Pantone, is being used to construct a complete workshop and laboratory. Research and development will yield salable units and experiments to be posted in videos online for public education.

scratch feet to smell
GEET emissions

*Experimental kit's are now available. To locate distributors go to www.GEETinternational.com

For more information
or email paul@geet.nl

(Yes, GEET emissions have no smell)

Rodin Torus

ExtraOrdinary Application of Vortex Based Mathematics

Randy Powell

This thorough and easily absorbable overview of Vortex Based Mathematics and its applications will include a comprehensive analysis of the mathematical formulation of the Rodin Torus beginning with the fundamental axioms of the Rodin Symbol of Enlightenment Schematic. The construction, form, and function of a mathematical torus based on these principles will be examined. Topics covered will include mathematical perfection and number stillness, vibration and functionality, the number nine, self-similarity, fractals, polarity, diagonal motion and bilateral symmetry, harmonic doubling and halving, powers of ten, inverse reciprocals, harmonic phasing, and triangulated polarization, multiplication tables as an implosion/explosion interferometry Pattern, numbers as pulses, fields, and one way vortexes.

Any and all technical applications of this mathematics will be explored. This includes the importance of sound in connection to acceleration, gap spaces and electrical efficiency, why there is no such thing as electro-magnetism, gravity as a result instead of a force, vortices, buoyancy and anti-gravity, supercomputing and number compression, plasma coils, quantum non-locality, antennas and sound systems, magnetic flux fields, gene expression and non-invasive surgery, fractal architecture, pyramids, and lastly singularity, implosion and inexhaustible energy.

Ace-O-Clubs Motor... Using Pulsed Rodin Coil

Jack Scholze

A brushless DC pulse motor powered by a Rodin coil coupled to a shaft mounted neodymium cylinder magnet rotor. The low voltage DC pulses are synchronized to the rotor via a Hall-Effect sensor, which provides a regenerative feedback loop. The motor runs smoothly at all speeds, and without a load will accelerate to 25,000 RPM and higher, limited only by the friction in the bearings and air resistance. The Rodin coil provides a powerful pulsing magnetic field near the center of the coil. The motor torque is proportional to the strength of these fields and the strength of the permanent magnet fields of the neodymium rotor, which is magnetized through the diameter. It is an off the shelf 1 inch diameter cylinder from K&J Magnetics.

A secondary function of the motor is the charging function provided by the collapsing magnetic fields which occur during each motor pulse. These voltage spikes are fed to a diode and on to the charging item, which may include batteries and capacitors. A portion of the input energy to the motor is recaptured in this manner. The motor is setup to run solely on Supercapacitors as an option, to see how well the charge function recaptures the incident source energy.

Health & Biological Effects of the ExtraOrdinary Rodin Coil

**Use of Rodin coils is
strictly experimental!**

**Always Exercise
Caution When Using
Any Electrical Device!**

Jamie Buturff

This lecture will be about the various ways to energize the Rodin coil and configure it to bring about desirable biological effects in both human and plant cells. The current design of the coil presented has never been shown or demonstrated in public before. Testimonials will be provided from people who have experienced the coil's effects as well as introduce scientific evidence proving the theory behind its energy generation and effects on living cells.

Attendees will see how the counter-rotating electromagnetic vortex of a specially built Rodin coil when energized with the proper harmonic frequencies can stimulate certain portions of DNA. Research conducted in the 1990s by J. Benveniste used a computer sound card and a pulsed electromagnetic wave to reproduce sounds in bodies

of test subjects where tissue cells then stimulated the natural communication with other cells in the body, effectively replacing the need for pharmacological and harmful drugs previously needed to affect the same result.

This new device doesn't just produce sound but also an electromagnetic vortex coupled with a pulsed magnetic field that penetrates living cells with special harmonic frequencies. These frequencies, or multiple harmonics of frequencies, are derived from the cosmic number of 432, which is found in ratios and lengths of the Earth, Moon, Sun, the Great Pyramid of Giza, Stonehenge, and many other seeming "coincidences" which I will reveal.

The geometry of this coil combined with the cosmic harmonic of 432 produces the Pythagoras Music Spiral and the Fibonacci Intervals which stimulate living cells into becoming what Nature naturally intended; vibrant, healthy, and immune from disease.

Global Sciences — Congress —

The Global Sciences organization was founded in 1983 by Dean Stonier to promote the understanding and integration of body, mind and spirit as well as the mysteries surrounding us... UFO's, crop circles, spiritual growth, ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies. Eventually this resulted in two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of the alternative world for nearly two decades!

Tesla Purple Plates and Other ExtraOrdinary Technology!

Joe Blankenship

The Tesla Purple Plate is the inventive collaboration between Nikola Tesla, and another inventor, Ralph Bergstresser. In 1942, Tesla told Bergstresser, the inventor of the Purple Plate...

If you want to find the secrets of the Universe, think in terms of energy, frequency and vibration.

Reportedly, the Tesla Purple Plates, or as they are sometimes called, Tesla Purple Energy Plates, function as transceivers of positive energy (negative ions) around them. The energy of the plates (possibly connected to Wilhelm Reich's Orgone energy) is reportedly beneficial to living organisms.

They are made of aluminum (1/16th of an inch thick) ...the atoms and electrons of the aluminum have been altered so the plates are in tune, in resonance, or in harmony with the basic energy of nature and the Universe. It is the same energy that causes the particles of every atom and molecule to be in constant vibration. They function as transceivers ... creating a field of energy around themselves that will penetrate any material substance by osmosis.

With the keys of 'energy, frequency, and vibration', we can unlock the doors to advanced material science to accomplish things like precious metal extraction from black sands. They also help us understand the amazing properties of materials such as magnetite!

Y-Pod Morphing Architecture

**The First Universal Assembler For
Shape-Changing Structures
Using Conventional Actuators For
Multi-Functional Applications**

Steve Bridgers

The new patent on the Y-Pod morphing architecture provides the design engineer with the first 3-D universal assembly system. The potential for this paradigm shift in design engineering is comparable to the potential of Xerox GUI architecture in 1980. Y-Pod morphing architecture is the first 3-D universal assembler. The patent on the Y-Pod architecture is more than a design system for a shape-changing structure. The patent covers the entire system: design elements, actuators and functional modalities.

The world of nature is not totally flat, rigid and laminar. The world of nature is not square. The world of nature is cellular, vascular and variable

**The World
is Not Flat**

in rigidity. The structure, functionality and actuation in nature are provided by the carbon atom. The chemical bonds of the carbon atom are like all chemical bonds: they are flexible and similar to springs. There are no straight lines or right angles in nature. There are no perfect spheres in nature.

The Y-Pod morphing architecture provides the functionality of the carbon atom to the design engineer. This new architecture can enable him to design systems that function on the nano, micro and macro scales!

Science is moving slowly and being dragged kicking and screaming into a belief of the ancient concept of the aether... a universal energy that is the basis for all of the natural forces as well as its manifestation as matter. Orthodox science has been resisting the concept ever since the faulty Michaelson/Morley experiments could not find an aether drift close to the earth's surface even though its existence was proven in many later experiments. If science wants to really make progress then the scientists in all areas of endeavors must get into an understanding of the higher order aspects of aetheric energy.

Aetheric Science The Next Frontier

Dan A. Davidson

**The more things change...
... the more they stay the same!**
Both of these drawings are vortexes.

Here, how various aspects of the aether manifests not only as the natural forces we are familiar with like electric and magnetic fields, gravity, etc. but how we as human beings are constructed and how we interact with the aether on the various levels in which we operate will be explained in detail.

Other aspects of the aether such as various levels of the aether. There are gradations of the aether associated with various levels of matter densities as well as a higher order aspects which few have ever contemplated. For example, there are "aethers" associated with mental and emotional states.

ORDERING INSTRUCTIONS

Please include your phone number!

This helps us to contact you in the event of a discrepancy or problem. Your privacy and confidentiality will be respected otherwise. It has always been, and always will be, our policy to NOT sell our membership and customer mailing lists.

Send special questions and comments on a separate piece of paper, so that the processing of your order is not slowed down. Although we may not be able to respond to your comments directly, we do welcome them and read every one of them — and often, changes and new books are the result of an inquiry. Technical questions are usually better handled if directed to our magazine, **ExtraOrdinary Technology**, as a “Letter to the Editor.”

We attempt to keep all books in stock. However, there are occasions when demand outpaces supply. Accounts are credited at the time an order is placed. If a book is out of stock, it will be backordered and sent to you as soon as it arrives. If a book has been discontinued, a refund will be sent immediately.

We try to keep our *Shipping and Handling* charges as low as possible. The US Postal Service's constant and ever accelerating rate changes have destabilized the shipping market. Currently, in our most recent shipping schedule, we have decided to ship *ALL* books by bookrate or surface, unless specifically requested otherwise. We are looking into UPS as an option... but they do not deliver to PO Box addresses.

We have a variety of payment options. In addition to accepting the major credit cards shown, we also accept checks, postal money orders, money orders and FRNs (ie. cash in US dollars).

Dissatisfied? If there is a problem with your order, please notify **TeslaTech, Inc** at **(520) 463-1994** immediately.

Thank you for your support!

Orders processed and shipped within a week

ExtraOrdinary Technology Conference

Albuquerque, NM • July 29 - Aug 1, 2010

Conference Early PreRegistration Form

Information so HOT... it NEEDS to be Suppressed!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have WORKING HARDWARE! We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!* -

Suggested Speaker Topics/Categories :

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Conference Notes:

- **Video Recordings.** Professional quality video DVDs will be available during and after the conference. *Private taping is not allowed.* Conference fees do not include DVDs.
- **Family Discounts.** Spouse rates available to immediate family accompanied by *members*.
- **Individual Sessions.** Individual session rates available at the door on a *space available* basis only.
- **Hotel.** The conference will be at the Albuquerque Marriott North Pyramid... There is a special group rate of \$79 which includes breakfast. To make reservations call:
(505) 821-3333
Rooms are limited and the rate is good until June 30. Be sure to ask for TeslaTech's special group rate.
- **Refund Policy.** *Nonemergency* refunds are subject to a 10% cancellation processing fee.

Send in with check or money order in United States funds to:

TeslaTech champions and nurtures advanced concepts and products in science and technology. Our publications and conferences provide independent inventors and researchers with a credible platform to introduce new, advanced concepts, inventions and discoveries to the world -- many of these concepts originated with Tesla at the turn of the 20th century. Research materials related to science and technology are available to the general public through our catalogs.
