

ExtraOrdinary Technology Conference

Albuquerque, NM --\$-- July 26 - July 30

Great Conference Site!!!

**Albuquerque
Embassy Suites
Hotel & Spa**

MEET THE SPEAKERS!

George Wiseman
Dr. Carolyn McMakin
Byington Sims
Thad Mauney, PhD
Russel Anderson
Michael Leas
Jere Rivera-Dugenio, PhD
Glen Rein PhD
Moray King
David vonOhlerking
Bob Boyce
Dr. Carolyn McMakin
Rhetta Jacobson
Mike Twichell
Dannel Roberts
Allen Adkins
Darren Colomb
Suzanne Price
and many more!!

ExtraOrdinary Topics Featured...

Tesla Technology • Magnetic Motors • Zero-Point Energy
Energy Savers • Cosmic/Radiant Energy • Brown's Gas
Low Temperature Plasma • GEET • ElectroGravitation
ElectroMedicine • Magnetic Healing

***Get UPCLOSE... & Personal
with Working Hardware!***

& Meet Real People!

**Information
so HOT... it
NEEDS to be
Suppressed!**

2017 ExtraOrdinary Technology Conference Overview

Albuquerque Embassy Suites • Albuquerque, NM • July 26 - July 30, 2017

TeslaTech, LLC reserves the right to make changes to this schedule without notice.

Wednesday • July 26

Session 1 (Evening) • An ExtraOrdinary Revelation

5:00PM: **George Wiseman** - *Brown's Gas (HHO) Health Applications*

8:00PM: **Conference Evening Social**

Thursday • July 27

Session 2 (Morning) • ExtraOrdinary Health Issues

8:00AM: **Suchinta Abhayaratna, ThD** - *Creative Holistic Integration Torus Mandala Visualization*

9:30AM: **Aeron Goldheart** - *Tesla Subtle Energies for Living Systems*

11:00AM: **Byington Sims** - *The Medicine of the Future: The Galvanic Bath*

Session 3 (Afternoon) • ExtraOrdinary Magnetic Technology

1:00PM: **Thad Mauney, PhD** - *Open Systems Thermodynamics and Free-Energy Devices*

2:30PM: **Bill Alek** - *The Physics of FREE Energy / Overunity Transformers*

4:00PM: **Russel Anderson** - *Beamships, the Biefeld Brown Effect, and Warp Drive*

Session 4 (Evening)

7:00PM: **Michael Leas** - *"Exploring the Force" for Unlimited Power*

8:30PM: **Conference Evening Social**

Friday • July 28

Session 5 (Morning) • ExtraOrdinary Health Devices

8:00AM: **Jere Rivera-Dugenio, PhD** - *Scalar Vortex Energy and Plasma Gas Therapy*

9:30AM: **Glen Rein PhD** - *Informative Medicine: EM Information Transfer between Biomolecules*

11:00AM: **Sandra Rose Michael DNM** - *Energy Enhancement System Bio-Active Scalar Generator*

Session 6 (Afternoon) • ExtraOrdinary HHO Technology

1:00PM: **Moray King** - *Harvesting Plasmoid Energy*

2:30PM: **David vonOhlerking** - *HHO Technology for Backyard Mechanics*

4:00PM: **Bob Boyce** - *Battery Smacker, Scalar Fields, and Nikola Tesla*

Session 7 (Evening)

7:00PM: **Dr. Carolyn McMakin** - *Extraordinary Resonance Effects in Clinical Practice*

8:30PM: **Conference Evening Social**

Saturday • July 29

Session 8 (Morning) • ExtraOrdinary Concepts...

8:00AM: **Cameron Rebigso** - *How "Classical" Physics Can Endorse Quasar Behaviors*

9:30AM: **Mike Twichell** - *Aether Matters!*

11:00AM: **Rhetta Jacobson** - *Harnessing Vortexian Mechanics*

Session 9 (Afternoon) • Real Alternatives in Energy Technology

1:00PM: **Vendors** - *Vendor Showcase*

2:30PM: **Dannel Roberts** - *Visible Light and Plasma*

4:00PM: **David Pantone** - *The ExtraOrdinary GEET Fuel Processor*

Session 10 (Evening)

7:00PM: **John Rahart** - *ORMUS/ORMES/ M-STATE... Same Stuff... Different Names*

8:30PM: **Conference Evening Social**

Sunday • July 30

Session 11 (Morning) • ExtraOrdinary Challenges

8:00AM: **Allen Adkins** - *The Cosmology of Walter Russell*

9:30AM: **Darren Colomb** - *Walter Russell's New Science Of Tomorrow*

11:00AM: **Suzanne Price** - *Tesla's Technology Secrets and Human Quantum Potential*

Pre Conference Workshop

Wednesday Afternoon

July 26 -- 1PM

Tensor Coil Workshop

David Garraway

**DVDs Will Be
Available After
Conference!**

Wednesday Workshop · July 26 · 1PM

Tensor Coil Workshop David Garroway

Aether waves surrounding us are both imploding and expanding while also accelerating or decelerating in a golden mean ratio. A tensor coil causes tension in the aetheric field around us thereby focusing it inward. Tensor math describes the curves of the coils which, in one aspect or another incorporate or change according to the golden mean ratio. The term **tensor coil** was first used in the 50s when Slim Spurling first made his copper coil that attracted radiant energy and gave off radiant energy.

A simple coil can be just a copper hoop with copper wire wrapped around it. This will capture some energy. When placed in water more light is pulled in and reflections become brighter. They also have properties that stimulate plant

growth and healing of wounds and illnesses in people.

The Garroway coil, may be the most efficient at radiant energy capture to date. This coil resonates with all 4 types of waves permeating the aether. This coil also incorporates the acceleration and deceleration occurring within the spiraling waves. These are micro twists and rotations imparted to the coil while making them, which are not visible to the eye once the coil is complete.

This workshop will focus on the parameters and construction techniques to make your own tensors. In addition to actually constructing coils, premade coils will be passed around so you can feel the energy developed for yourself!

Conference Lodging Facilities

Limited space...
Please register by June 30!

Albuquerque Embassy Suites Hotel & Spa

1000 Woodward Place NE
Albuquerque, NM 87102

(505) 245-7100

www.albuquerque.embassysuites.com

Hotel Reservations:
(800) 362-2779

Use Code: TTI

**Be sure to request our special
2017 TeslaTech
ExtraOrdinary Technology
Conference rates!**

\$99⁰⁰ per night!!

Special rate guarantee expires June 30!!!

Conference Evening Social

**Meet the Speakers
... and New Friends!**

**Wed/Thu/Fri/Sat
~8:30PM**

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. Its a great opportunity to make new friends that share your interests. We even provide some refreshments!

Hotel Amenities

**Special hotel amenities for
conference attendees include:**

- Free Breakfast
- Complimentary Drinks
- Free high speed internet
- Free local calls
- Clean, fresh, two room suites

All suites equipped with two 27-inch televisions, a refrigerator, microwave oven, coffee maker, iron, ironing board, hairdryer, two telephones and a dining/work table.

**For taxicab service in Albuquerque,
Call Albuquerque Cab Company at**

(505) 883-4888

**Need an Airport Shuttle?
(505) 883-4966**

9TH CONFERENCE ON FUTURE ENERGY

July 28 - 29th 2017

Albuquerque Embassy Suites Hotel, NM

FuturEnergy.org

888-802-5243 or 301-220-0440 Fax: 301-513-5728

IRI, 5020 Sunnyside Av #209 Beltsville MD 20705

**FREE ADMISSION to COFE9 with
ExtraOrdinary Technology Registration**

Robert DeBiase
"Quantum Fire
Project"

Carolyn McMakin
"Resonance Effects with
Microcurrents"

Glen Robertson of NASA
"Propentless Space
Drives"

James Dunn
"Energy Devices
Research"

Aidan Shaffer
"Living Off the
Grid"

Thorsten Ludwig
"Casimir Forces
Experiment"

Russell Anderson
"JRR Searl Propulsion
Devices"

Mike Gamble
"CMG Propulsion
Device Project"

SPECIAL SPEAKER: Josh Reynolds, Investor speaking on his TT Brown Project

William Alek: "Warp Drive Engine Technologies"

**PLUS: Dan Grebenisan, Don Reed, Vince Marshall (Cherokee Energy) Dave Froning,
David Strom, Nagamamy Nirmalakhandan, James Wayne Purvis, and Tom Valone**

Conference Evening Sessions ...

Wednesday Jul 26 -5PM

Brown's Gas (HHO) Health Applications

**Brown's Gas (HHO) has dozens
of extraordinary applications.**

George Wiseman

Brown's Gas (BG or HHO) has dozens of extraordinary applications. Once you have a BG generating machine in your home or business, there are many ways you can use it to save money and enhance your life. This presentation is based on REAL WORLD applications and results already achieved by people (and clinics) actually using BG to resolve health issues using this very special form of WATER.

Brown's Gas for Health is an emerging application that can be entirely made at home... from building the electrolyzer to the application of the gas. Dozens of practical BG applications will be highlighted before George specifically addresses using BG to increase the health of plants, animals and people. By actually achieving health instead of treating symptoms. BG is an excellent technology to help you take back control of your health from the Pharmaceutical Industry. This application is extraordinarily astounding, yet is being done by ordinary people in their own homes everyday!

Friday Jul 28 - 7PM

ExtraOrdinary Resonance Effects in Clinical Practice

Carolyn McMakin, MA, DC

The effects of specific frequencies delivered by square wave pulses and micro amperage current have been used and documented by Frequency Specific Microcurrent practitioners for decades. They have done things with the frequency protocols that I would never have thought possible 20 years ago when I started teaching this.

The documented effects include log rate reductions in all inflammatory cytokines by factors of 10 and 20 times within 90 minutes in human patients, and 62% reduction in lipoxigenase mediated inflammation in 4 minutes, 30% reduction in COX mediated inflammation in 4 minutes and other specific effects on immune system response produced in an animal model. Well documented case data suggests profound effects in regulation of the autonomic nervous system, PTSD, autism, brain injuries, liver disease, diabetic peripheral neuropathy, brown recluse spider bite, post operative recovery and pancreatitis. The results have been shown to be produced only by specific sequences of two channel frequency pairs. The proposed mechanism of these effects will be discussed.

Thursday Jul 27 - 7PM

"Exploring the Force" for Unlimited Power

**Introducing the "Magnevex"
Magnetic/Electric Vortex gear**

Michael Leas

Advanced research in Electro/Magnetic/Vortex fields will be presented from experiments resulting in the patent pending *Magnetic Spiral Bevel Gear #62/183,191*. Michael's research provides a new understanding of vortex energy dynamics. At a time when our energy sources questioned as to their ability to sustain the masses upon the world, researchers work to move beyond the old reactionary ways of fossil fuels and move into a new method of connecting our electrical systems to the *wheelwork of Nature* as once stated by Nikola Tesla. *Magnevex* functions using energy principles based on the writings of Norman, Tesla, and Russell which illustrate natural laws of the universe. In forming these new equations of 4-dimensional electromagnetic physics of cyclic motion instead of linear reaction, we can tap into a pulse, a wave, a cycle, as a regenerative movement of energy. This is where we will find a continuous cycle from this inexhaustible source, the infinite *Electric/Magnetic Vortex Field*.

Saturday Jul 30- 7PM

ORMUS/ORMES/ M-STATE Same Stuff... Different Names

John P Rahart DDS

Since ancient Egyptian times, alchemists have worked in secret to produce something called the Philosopher's Stone, or the Elixir of Life. Now, researchers have discovered materials believed to be related to the Philosopher's Stone. They were described as monoatomic elements in a high-spin state. Initially they were called **Orbitally Rearranged Monoatomic Elements (ORMEs)**. Other references include ORMES, monoatomic gold, white gold, white powder gold, ORMUS, m-state, AuM, microclusters, and manna.

As information on ORMUS accumulates, a mosaic of information across diverse disciplines emerges. An apparent 5th state of matter, whose qualities bridge the dimensions seem to come into play. Understanding, and integrating these qualities open doors to multidisciplinary realms. The quantum behavior and properties of these materials reveal previously unsuspected relationships in the material world between physical matter, living beings, and consciousness. Applications in biology, physics, medicine, health, and agriculture are being explored, expanded, and documented.

Tesla Subtle Energies for Living Systems Ancient Knowledge in Modern Science

Aeron Goldheart, CHt

Tesla's paradigm is the production of complex subtle energies that interact with one another that affect our health, mental and emotional life experience. Tesla's paradigm originated from his research and development of electric apparatus. His inventions, notably the Tesla Coil, emitted more than electrical current. Subtle energies emitted corroborate with many of the esoteric principals and spiritual beliefs that have been part of our world's cultures for millennium. These traditions hypothesize that all things, including man, are made up of a vast array of interconnecting subtle energies and energetic fields. This perspective makes it easy for us to appreciate how we are all connected to one another and to everything that occupies our universe, both seen and unseen.

As we move into our new millennium, we are poised at a unique point in human history where science and belief systems are becoming one. With it, a new standard of health and medicine begins to unfold. This new model sees the body, not only as a series of organs, glands and biological processes, but also as a network of complex subtle energies that interact with one another. This explanation of the life experience is called the Tesla paradigm.

The Creative Holistic Integration Torus Mandala Visualization as a Holistic Health Intervention

Suchinta Abhayaratna, ThD

Creative Holistic Integration (CHI) is a synergistic holistic self-care system using subtle energy. The presentation will combine experience and discussion of the Torus Mandala Visualization as a quick, easy and efficient intervention for stress management.

The Torus Mandala Visualization has three components:

- 1) A visualization of a Torus Mandala (circular symbol).
- 2) Heart-centered toroid patterned breathing.
- 3) Mental repetition of a breath mantra (repetitive focus phrase).

The audience will self-assess stress levels on the Subjective Units of Distress Scale (SUDS) before and after experiencing the intervention. A discussion of intervention will follow.

The original study on the physiological effects of the CHI Process was presented as a Doctoral Dissertation at Holos University. An experiment with repeated measures utilized 23 male and 35 female Sri Lankans, randomly assigned to an intervention group and a control group. All procedures were carried out individually. Heart Rate Variability was recorded in both groups before, during and after three five-minute sessions.

Descriptions of thoughts and physical sensations during the observation period were recorded on audiotape. The intervention group showed statistically significant improvements, and perceptions of well being. The control group sat quietly with eyes closed, breathing normally. Little or no change in the repeated measures was observed.

Historically, as far back as 1890, the American ElectroTherapeutic Association conducted annual conferences on the therapeutic use of electricity and electrical devices by physicians on ailing patients. Some involved current flow through the patient; while others were electrically powered devices.

We are electromagnetic (EM) beings with so much EM activity in our body that the chemical exchange almost pale into insignificance. The study of the biological effects of electromagnetic field (EMF) has only recently been called bioelectromagnetics (BEMs). There are many BEM instruments, devices and machines reemerging in the 21st century, based on Tesla coils, that apparently bring beneficial health im-

The Medicine of the Future: The Galvanic Bath

Byington Sim

provements to human organism. The Tesla coil class of therapy devices constitutes pulsed electromagnetic fields (PEMF) that deliver broadband, wide spectrum, nonthermal photons and electrons deep into biological tissues. With short term, non-contacting exposures of several minutes at a time, such high voltage Tesla PEMF devices may represent the ideal, noninvasive therapy of the future, accompanied by a surprising lack of harmful side effects.

In 2006, Byington contracted MRSA and invented the portable galvanic to heal himself! Since then the Advanced Magnetic Research Institute (AMRI) in Tucson bought many bath machines found the scientific proof that the galvanic bath is effective as they reduce inflammation, infections, and pathogens as well as detoxify the body.

Open Systems Thermodynamics & Free-Energy Devices

Thad Mauney, PhD

ergy flows, but we need not assume that these “Laws” can’t be further refined.

Countless reports of energy anomalies motivate us to explore the thermodynamics of open systems to answer:

- Which ones actually work,
- How well do they perform,
- Where, does energy gain/loss occur, and
- Which theory of energy gain/loss best fits experimental observation?

This in mind, we examine some FE/OU devices to show how Open Systems Thermodynamics clarifies the system’s operation and compare theories of energy release. These would include:

- **Paul Pantone’s GEET** – Energy from the vacuum, or from the local environment?
- **Josef Papp’s piston engine** – Electromagnetic, nuclear, or something else?
- **Pulsed EMF Motors** – Non-linear electromagnetics, or extraction from ZPE?

The science of thermodynamics was developed to make sense of energy’s quantity, direction, and rate of flow. For heat engines doing mechanical work, postulating strict conservation of mass and energy worked beautifully. Conversely, the Big Bang theory seems to contradict mass-energy conservation, so why should we assume that mass-energy conservation is universal law?

Free Energy/Over Unity devices require Open Systems Thermodynamics to account for apparent gains and losses of energy. Open Systems Thermodynamics builds on the well known First and Second Laws to make sense of en-

The Physics of FREE Energy / Overunity Transformers

Bill Alek

A typical AC transformer utilizes a principle of transferring electrical energy called *mutual electromagnetic induction*. This effect described as Faraday’s Law of Induction (1831) permits a near equal amount of REAL power to be transferred between the input coil and the output coil. The “near equal amount” is the result of imperfections or losses in the transformer causing the efficiency of the same transformer to approach, but never exceed 100%.

In the 1980s, Floyd Sweet developed a transformer he called the Space Quanta Modulator (SQM) and later renamed the Vacuum Triode Amplifier (VTA) by Tom Bearden. The transformer had an efficiency exceeding 1,000,000%. Mainstream physics could not explain how this was possible. Shrouded in secrecy, the operation of Floyd’s VTA device was not understood until now.

In 2002, an article published in *Infinite Energy Magazine* by D.L. Hotson revealed how the VTA operates utilizing what is called the “Dirac Sea of Negative Energy.” The key to understanding how FREE Energy / Overunity transformers work is through the application of a negative work function applied to transformer T1 shown above.

This negative work function is created using magnets forced together in an opposing field configuration. This electromagnetic dampening field is present around transformer T1. Since the output power of transformer T1 drives a REAL load, the output electric current is REAL. Therefore, efficiencies greatly exceeding 100% are measured.

Beamships, the Biefeld Brown Effect, and Warp Drive

Russell Anderson

The concept of an *all-electric aerospacecraft* with no moving parts was initiated over a century ago by Nikola Tesla. In 1916-17, Dr. Francis Niepher performed meticulous mass-deflection experiments with lead spheres suspended by wires and electrified inside both shielded and unshielded containers, showing the force was able to penetrate Faraday cages.

Before 1905, George S. Piggott was routinely suspending small silver spheres and other materials using the electrostatic force field from a specially designed Wimshurst machine. TT Brown discovered in the 1920s that hi-Voltage, low Amp electricity causes movement in objects... specifically capacitor-configurations. Jan 10, 1929, Einstein released his Unified Field Theory for Gravitation and Electricity.

I will show that Gravity is a simple ELECTROSTATIC effect. The Unifying field is the Electrical field, because it can produce gravitational acceleration fields as well as magnetism, permanent and temporary. My presentation will include my reproduction of TT Brown’s groundbreaking Electrokinetic Apparatus, followed by a history of Electrogravitics and Electrogravitics patents, and presentations of the facts that show the Military was very interested in what was covertly starting to be known as WARP DRIVE. and that is just the start! I will have ongoing public demos of my TT Brown flying saucers, and my BEAMSHIP hovering anti-gravity flying models (for sale)!

Informative Medicine

Electromagnetic Information Transfer between Biomolecules

Glen Rein, PhD

Recent experimental evidence shows that chemical information can be transferred, via an electromagnetic field, from a biomolecule or drug to a target biological system. In most experiments the information is stored in water. Such imprinted water has no physical biochemical present, yet information stored in the water is capable of producing the same biological effects as the original chemical. Numerous university labs in a variety of countries have confirmed this phenomena and published the results in "peer-reviewed" journals. The phenomena has also been observed using living cellular systems.

This involves the concept of a biofield whereby intrinsic energy fields associated with all molecules and cells function independently of its biochemical counterpart and even replace it. This concept is based on the hypothesis that the biofield is an aggregate of EM fields embedded within atomic and molecular structures. This phenomena was first observed more than 100 years ago using homeopathic preparations, allowing the separation of the biofield from its parent biochemical. Current experiments indicate that not only water, but an EM field can also carry chemical information. This phenomena also involves the concept of water memory whereby water remembers information imprinted into it via an EM field. Experimental evidence indicates that water can record, store and replay this EM information.

Scalar Vortex Energy and Plasma Gas Therapy

**An Effective Stress Management Technology
for Healing the Cellular Regenerative System.**

Jere Rivera-Dugenio, PhD

There are two mechanisms in the body of concern to treatment of disease and recovery from disease and damage to the body. The first is the immune system, which seeks out, attacks and destroys invader cells such as cancer. Once its mission is complete, the function of the immune system is over. It does not heal anything, even its own damaged cells. The actual healing system is the cellular regenerative system, which is a rare electromagnetic system that consists of longitudinal scalar waves.

Based upon the principles of Tesla, Becker and Bearden, this scalar energy plus plasma gas technology reprograms morphogenetic energy fields of the cell, which in turn harmonizes an individual's autonomic nervous system

that controls stress, which is a major contributor to disease and the aging process. Patients with varying health issues from cancer to diabetes were used in this case study. Each patient was exposed to 30 minutes of the treatment on a daily basis for only 7 days.

Areas of improvement include harmonization of the autonomic nervous system, cardiovascular system, brain wave activity, neurohormonal regulation and psycho-emotional state. Data suggests using this technology within any disease prevention protocol may lead to important advancements in reversing disease and the aging process.

The Future of Medicine Bio-Scalar Technology for Optimal Health and Wellness

Sandra Rose Michael, DNM

of anti-aging and the promotion of optimal health, wellness, rejuvenation, peak performance and longevity.

In this presentation you will:

- Gain understanding of the science behind bioscalar technology, biophotonic fusion, and various modalities of energy medicine.
- Identify real-life applications and advantages using bio-scalar therapies in various settings and the achievement of "miraculous" results.
- Learn about the documentation of dramatic improvements in lifestyle and function in case studies.
- Describe usage of scalar technology in various environments and applications with resultant improvement in overall health, wellness and homeostasis and the implications for promoting optimal brain states, wellness and longevity.

Harvesting Plasmoid Energy

Moray King

A *plasmoid* is a vortex ring of plasma discovered in z-pinch fusion experiments by Bostick in the 1950s. The plasma vortex ring is often used to explain the stability of ball lightning. Ken Shoulders made a career of experimentally studying microscopic ball lightning forms that he named “electrum validum” and later “exotic vacuum objects” when he became convinced that they contained excess energy sourced from zero-point vacuum energy. The excess energy manifested in two ways:

- 1) **Electromagnetic pulse (EMP)** in the form of huge voltage spike and
- 2) **anomalously large force** on any surface they struck.

Over the years some inventors claim-

ing “free energy” devices empirically discovered how to extract the energy of short-lived plasmoid events without realizing they were doing so.

Perhaps the most common example is driving an internal combustion engine on HHO gas. Most inventors believe hydrogen is the sole energy source. In actuality the huge manifested excess energy comes from microscopic ball lightning, formed around sub-micron water droplets via plasma discharge from the spark plug. A notable example is the Jenkins invention. It does not use electrolysis, but instead abruptly discharges plasma into fog from a spark plug shaped like a miniature Tesla coil.

HHO Technology for Backyard Mechanics

David vonOhlerking

While many dream of reducing their carbon footprint, most people and garage inventors can’t just go out and buy the latest Tesla model S car! However, we can focus our efforts on the application of technologies to improve the operation of devices we already have. This gives us a means and stepping stone to get to the “next big thing”!

Our team has made several efficiency modifications over the years, including everything from home batteries, and green generators, to recycling processes, and ongoing work to provide more user-friendly efficient ECUs for cars. Our projects have implemented some of Nikola Tesla’s patents with modifications, Bob Boyce technology, and various vaporized patents including our own renditions as well as our own, to provide a platform of unison and synthesis.

Last year we got one of our motorcycles to run multi-fuels, with a 80% more efficient burn on everything from ethanol and diesel, to tequila and rubbing alcohol. The current project is a multi-fuel hybrid car which will also function as a home power generator! Measurements are taken every step of the way, and tests are conducted thoroughly to provide irrefutably true scientific data. Come see where we are on this Twin Turbo Green Energy Vapor+Hydroxy Mercedes 560SL project, and learn why, and how it works the way it does. How do you like the idea of 100+ Miles per gallon?

Battery Smacker, Scalar Fields, and Nikola Tesla

Bob Boyce

This retired DOD lab scientist with advanced research into quantum physics, and chemistry, delves into Tesla’s non-hertzian energy. He has been involved in this science for decades, using it to develop many technologies. With Andrew Batty of Hydrogen Garage, he introduced the *Battery Smacker*, which blends non-hertzian energy with traditional electromagnetic energy to charge and desulphate lead/acid batteries. It allows the mix of energies to be adjusted. Good for anyone that wants to desulphate their batteries or experiment with non-hertzian energies.

His current efforts are focused on a Bandolero class race car (700lb. single seater electric car with 12" tires) that never needs plugging in to re-charge the lithium batteries. Tapping into longitudinal energy fields, it will require no charging!! No need to plug it in!

Bob is well prepared for an extensive question and answers segment about many topics. He was an avid student of the *Colorado Springs Notes* and could understand Tesla’s handwriting. While Tesla left out many items in his patents (like all patentors usually do), Bob figured many of them out.

A practical application of his studies is the receiver of a standard Tesla Coil. While there a lot of Tesla coil builders, about 95% of the people who build Tesla coils do not know they have a mini radiant wireless energy power plant. To utilize this energy, they just need to build the receiver, a feat that Bob has already mastered!

How “Classical” Physics Can Endorse Quasar Behaviors

Cameron Rebigsol

It is a common understanding that classical physics means a theory system in which mechanics follows the principles laid by Galileo and Newton while electromagnetics follows the principles laid out by James Clerk Maxwell. Cross references regarding movement between these sets of principles, raises no contradiction and therefore no reconciliation needs to be pursued after.

New observations may challenge our understanding with the classical theory system. Instead of reviewing our comprehension about the classical theories, which are based on common sense and logic, we devise new theories to fit the new experience. The explanation of the phenomena related to quasars with Einstein’s relativity is one of such typical activities. In particular, relativity calls the superluminal movement observed accompanying with blazars as illusion.

As such, superluminal movement as a phenomenon must corner human beings to make choice whether to allow observation to stay as evidence to reject relativity or the other way around. Unfortunately to relativity, without too much effort, calculation can show that relativity must lead to its self-refutation with $c=0$ for the speed of light. With $c=0$, relativity can no longer guide us to visualize anything as illusion as it must first take care of its own various illusive concepts such as length contraction and time dilation.

Harnessing Vortexian Mechanics

Rhetta Jacobson

This overview of equipment and methods utilizing vortex technology resulted from intense research and development with prototype applications. Devices address municipal/industrial water treatment, delivery/storage, wastewater treatment, and rejuvenation and recovery of lakes and rivers.

Nearly all of the present problems associated with obtaining good quality and the overabundance of waste can be attributed to the manner in which the water and waste have been handled to date.

Spring water, known for its purity, points to the reality that Nature can purify water. The modes of pollution are well known, as well as their outcome. The means of purification is a secret of Nature revealed as “vortex action”. When one considers the natural cycle

of water they find aeration taking place in the streams and rivers, sedimentation in the lakes, and filtration in the earth. An examination reveals that rivers are not straight, lakes are not cylindrical, and the earth is not homogeneous creating angular surfaces which induce turbulent, irregular vortices that energize water. By imitating nature, we can restore polluted waters to its original high quality, energetic state.

In the 1800s... the Battle of the Currents (AC vs DC) between Tesla and Edison determined the type of electrical power grid we still use! This century, another battle, the struggle to determine the space-time paradigm (Aether vs Relativity), a major disagreement between Tesla and Einstein. To address anomalies, quantum physics was created and has baffled innocent victims for years. Now, this over-complex attempt at a solution is debunked, with the revelation of the correlation between quantum particles and the aether paradigm.

The existence of the aether has finally been proven! ... And believe it or not, it was captured on film. Finally we have actual visual proof of the aether,

Aether Matters!

Secret NASA Video Reveals THE Most Amazing Discovery in the History of Mankind!!!

Mike Twichell

and “seeing is believing”. I will reveal this secret video from NASA during my presentation!

But regardless of whether or not the existence of the aether has been proven by a simple video, my discovery of the Slow Surface Paradox may lead to experimental proof of the aether as well, through a variation of the Pound-Rebka Experiment. This well known experiment tests Albert Einstein’s theory of general relativity. A gravitational redshift experiment, it measures the redshift of light moving in a gravitational field. In effect, this is a test of the general relativity prediction that clocks should run at different rates at different places in a gravitational field. It is considered to be the experiment that ushered in an era of precision tests of general relativity.

The ExtraOrdinary GEET Fuel Processor

David Pantone

In simple definition, the GEET Fuel Processor could be called a new type of carburetor with a miniature refinery built in...

Plasma, the fourth state of matter, is a relatively new field of study whose boundaries are being expanded by studies made possible by the GEET engine technology invented by Paul Pantone. GEET is based on a self-generated low temperature plasma field. Since the advent of GEET devices, Paul discovered 181 new phenomena.

At least eight "Unidentified Fields of Energy" around the GEET have been observed. The lack of a common terminology and methodology makes it difficult to validate and replicate new discoveries. Here are some fundamental observations that are being studied.

When trying to locate where the Reactor Rod is positioned while running,

use a hand held digital thermometer. When the thermometer reads it is the hottest, this indicates the center of the Reactor Rod. This is a false reading. Though the thermometer indicates a hot spot, it is *not* the hottest spot. Something "inside" the reaction chamber is causing the false reading that allows us to determine that the Rod is at that exact location.

Another strange observation is the *Auric Field*. Once a Reactor Rod is used for 30-minutes, it holds a signature indicating if the fuel was matched to the Reactor Rod for maximum efficiency. A test to validate the correct length, is by using a compass. When the Rod is "broke in" the compass will show it has a North and South. Maybe it does...

Visible Light and Plasma with a directional flow showing collective behavior

Dannel Roberts

Dannel Roberts, a theoretical physicist, presents his theory of visible light. This extraordinary material, featured in his book, *Particle Mechanics*, has never before been presented before in public. In the theory, there is a universal particle that changes states. Each state has a purpose and characteristics. Visible light can be explained by three particles. Each particle has a different reflective and absorption property.

Progress with the "Rohner Effect" and the Roberts Rotary Engine will be reported. If you have not followed us before, Bob Rohner made a discovery that causes inert gasses to explode in a quick expansion and contraction. This is unknown territory and we continue to discover things that work and lots of things that do not.

We have built and tested four models of the Roberts Rotary Engine and several piston devices. Each test reveals new discoveries. Not once has a hot gas been encountered. Our research suggests the noble gases are changing to a liquid.

The engine accelerates from 0 to 1800 RPMs in one plasma expansion. We also get four and a quarter revolutions off that one hit of which we will be showing high speed footage. Additionally we discovered that the plasma when it expands has a directional flow and shows a collective behavior. With our new high speed camera, we have some pretty cool footage. Who knows what else we will have by showtime!

Vendor Showcase

Not all of the new and exciting technologies make it on stage. Often, some of the best technologies are out in the expo area. As a new feature, we are allowing the vendors an opportunity to give a 5-10 minute presentation on the products that they have brought to the conference. Since time is limited, this activity will be restricted to the vendors who are not speaking at the conference.

CONCURRENT CONFERENCE

**Friday-Saturday
Jul 28 — Jul 29**

Integrity Research Institute, sponsor of COFE9, is collaborating with the ExtraOrdinary Technology Conference and TeslaTech to present a two-day conference event with peer-reviewed published proceedings on July 28-29, 2017. COFE traditionally fulfills the mission statement of Integrity Research Institute to "research scientific integrity in the areas of energy, propulsion, and bioenergetics" so original papers on those vital topics are invited.

The COFE9 speaker schedule will be posted at the conference. A written proceedings of the conference will be available for purchase. DVDs will be available at the site.

Attendees of the TeslaTech Conference will be able to attend the COFE9 lectures at no additional charge.

Particle Mechanics

The Theory of Energy States

— Dannell Roberts —

This book may contain the unifying theory of physics. What is the Unifying Theory? It is an idea that will show the relationship between all energies and matter. That's exactly what this book does, starting by classifying the basic characteristics of energy and matter.

By building on these ideas a new model of the atom will be introduced. This leads to new models of the elements. Then we will show new ways of chemical bonding. Many new molecules will be introduced. With these new ideas, you can look at an element or molecule and tell how it will act chemically. These ideas leads to heat and cold causes.

Next we discuss gravity, and you will be introduced to a completely new concept. Gravity will be far easier to understand than you can imagine. This theory will then bring in new concepts of sound, light, electricity and magnetism. All this is then tied together to give you a picture of how the universe really works. The simplicity of this theory will amaze you. (372pp)

Energy Machine of T. Henry Moray

Zero-Point Energy &
Pulsed Plasma Physics

by **Moray B. King**

In the 1920s Moray invented a "free energy" device that produced 50 kW of electricity. Unexplainable by orthodox science, the electricity exhibited a strange "cold current" characteristic where thin wires could conduct appreciable power without heating. Moray suffered ruthless suppression. In 1939, the device was destroyed.

Today, modern physics recognizes *zero-point energy*. Other inventors discovered it is activated by pulsing plasma, and created novel energy devices, but they too were suppressed. The common pattern of these technologies clarified the fundamental operating principle. Free energy that works! An inspiration... a MUST have book (200pp)

450003-Energy Mach of Moray 14.95

Electric Motor Secrets

by **Peter Lindemann**

Laying dormant within the modern electric motor is a deep, dark secret. For the last 176 years, that secret has held the electric motor to its present level of performance. But in 1975, a quantum leap in electric motor design was made by an American inventor named Bob Teal. Teal's Magnipulsion Engine produced COPs between 8 and 10. Using lab demonstrations, patents, diagrams, and private documents, Dr. Peter Lindemann takes you on an extraordinary trip through the history of electric motors, resurrecting the secret of Magnipulsion, and revealing the future of efficient electric motor design. MUST HAVE DVD! (2hr 26 minutes)

Basic Electricity

**US Bureau of Naval
Personnel**

Originally a training course, its the best non-technical coverage on electricity. Topics include batteries, circuits, conductors, AC and DC, inductance and capacitance, generators, motors, transformers, amplifiers, etc. Many questions with answers.

390001- Basic Electricity 15.95

Basic Electronics

**US Bureau of Naval
Personnel**

This clear, well-illustrated introduction to electronic equipment covers the safe use of electronic devices and basic test equipment, plus numerous essential topics: electron tubes, semiconductors, electronic power supplies, tuned circuits, an introduction to amplifiers, receivers, ranging and navigation systems, an introduction to computers, antennas, AM/FM, and much more. 560 illustrations.

390002- Basic Electronics 18.95

Tools and Their Uses

**US Bureau of Naval
Personnel**

Teaches names, general uses, and correct operation of all basic hand and power tools, fasteners, and measuring devices you are likely to need. Also, grinding, metal cutting, soldering and more.

390003-Tools and Their Uses...10.95

The Cosmology of Walter Russell

**Experiential Insights Into How
the Universe Actually Works**

Allen Adkins

Regardless of whether or not one has heard of the work of Walter Russell, it is of great value to gain a workable understanding of the legacy of this remarkable human being. In our effort to become aware of the truth about the actual real and true Laws of Creation, such as Light, Polarity, Wave Fields, Electricity and Magnetism and gain an understanding sufficient to utilize this knowledge in usable devices, then we need to derive our subsequent understanding on real, genuinely true Universal Principles.

Even though Walter Russell first started publishing and making his teachings available since 1927, with the publication of *The Universal One*, and with the publication of numerous other books, diagrams and paintings, it has proven challenging for most everyone to gain a working understanding of Russell's Cosmology. In this presentation, many of the key and critically important aspects of the Russell's Science of Tomorrow are elucidated.

Just as the Rosetta Stone was key in deciphering Ancient Hieroglyphics, so it will be seen that a workable understanding of Russell Cosmology is key in deciphering many of the most sought after "secrets" of Nature itself and how to harness it for our noble purposes in the very near future. The presentation includes very special 3D animations of Russell's Cubic Wavefield Dynamics, critically important to aid in understanding key points.

Walter Russell's New Science of Tomorrow

**A Rosetta Stone for Understanding
Next Level Technology**

Darren Colomb

Walter Russell had one of the rarest experiences known to humankind: full Cosmic Illumination into the Light of Consciousness. In this 39 day and night experience he gained all his knowledge of physics, chemistry, astronomy, and advanced metaphysics. Upon reading Walter's first treatise, Nikola Tesla recognized the massive importance of this knowledge and told Walter to "lock it up in the Smithsonian for 1,000 years until mankind was ready for it."

The University of Science and Philosophy is dedicated to empirically proving Russell's scientific principles. We have made significant progress based on the understanding that modern science is still primitive because man himself is still in his early stages of unfolding. We use this *New Science of Tomorrow* to-

The secrets of Tesla's technology are in plain sight, but understanding his achievements eludes researchers due to persistence in applying principles of an inaccurate scientific paradigm. Nikola Tesla made amazing discoveries with his photon/resonance theory of physics and concept of "radiant" energy, but these findings have been suppressed for over a century. Inventors in every category of research are discovering how limitless energy can be tapped by correcting flaws in the paradigm and re-inventing their approach.

Few people realize the power of human body-mind-spirit as the ultimate creative vehicle of quantum energy.

day to invent and describe technology that defies mainstream theories. The laws of Nature never change, but man's theories change frequently as evidence arises. This does not apply to the New Science because we begin directly from CAUSE, and are not prone to the many complexities and need for empirical reasoning as modern science is.

No man can acquire knowledge beyond his range of perception. As long as man's range of perception is limited, his cosmology will be what his sense tell him it is. With new knowledge we can transcend this limitation and live in harmony with Nature rather than fight it in attempt to dominate it.

Tesla's Technology Secrets and Human Quantum Potential

Suzanne Price

Understanding this possibility is to appreciate the limitless sea of energy in the human form and how it may apply to energy devices. The brain is a magnetic wave generator that receives and processes energy patterns, holographically capable of transcending nonlinear time/space faster than the speed of light. Each of the seven trillion cells of the body function like tiny radios in an array of complex protein crystal lattices. The double helix DNA, capable of these same processes, transfers information via water molecules.

This presentation interprets Tesla's hidden discoveries. His insights are compared to findings that Horowitz, Pollack, Merkl, Meyl, Lipton, Veljkovic and others have uncovered about human quantum consciousness and the EM energy body- mind-spirit.

2017 ExtraOrdinary Technology Conference

Albuquerque, NM • July 26 - July 30, 2017

Conference Early PreRegistration Form

Register by Jun 30, 2017 for 20% Discount on Registration!

Information so HOT... it NEEDS to be Suppressed!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have **WORKING HARDWARE!** We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!* -

Suggested Speaker Topics/Categories :

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Conference Notes:

• **Video Recordings.** Professional quality video DVDs will be available during and after the conference. **Private taping is not allowed.** Conference fees do not include DVDs.

• **Family Discounts.** Spouse rates available to immediate family accompanied by *members*.

• **Individual Sessions.** Individual session rates available at the door on a *space available* basis only.

• **Hotel. Embassy Suites...** includes **free breakfast**, free internet, and **free happy hour**. This **IS** the best price/service combination possible and convenient..

Make your reservations early at TeslaTech's special group rate starting at \$99 per nite.

• **Refund Policy.** Exchange only.. no cash refunds. Service fee of \$25 on all refunds. Refund credit for goods/services offered by TeslaTech only.

Cancellations after Jul 14, 2017 & "No Shows" are non-refundable

Send in with check or money order in United States funds to:
